To
POWERGRID Unchahar Transmission Limited,
Investment Manager,
POWERGRID Infrastructure Investment Trust,
Plot No.2, Sector – 29,
Gurugram, Haryana
122001, India

Subject: Half-Yearly report on Fair value of Transmission Assets Portfolio of POWERGRID Infrastructure Investment Trust as per SEBI (Infrastructure Investment Trusts) Regulations, 2014 as amended.

This is in reference to our engagement wherein INMACS Valuers Private Limited (appointed registered valuer, hereinafter referred to as 'We', 'INMACS' or 'Valuer') has been appointed as independent valuer for POWERGRID Infrastructure Investment Trust vide letter of award dated August 01st, 2022 bearing reference no. 5006003197/OTHERS/DOM/A02-CC CS-3/NOA/01 in pursuance of provisions of Regulation 21 of the SEBI (Infrastructure Investment Trust) Regulations, 2014.

As per provisions of Regulation 21(5) of the SEBI (Infrastructure Investment Trust) Regulations, 2014:

"A half yearly valuation of the assets of the InvIT shall be conducted by the valuer for the half-year ending September 30th for a publicly offered InvIT for incorporating any key changes in the previous six months and such half yearly valuation report shall be prepared within one month from the date of end of such half year.."

In this regard, the Investment Manager and the Trustee intend to undertake the fair valuation of the transmission asset portfolio (hereinafter also referred to as 'Specified SPVs' collectively) as on September 30th, 2023. Accordingly, this report should be read in continuation to our report dated 17th May 2023 in relation to the valuation of the Specified SPVs as on 31st March 2023.

INMACS Valuers is a registered valuer entity registered vide IBBI/RV-E/02/2021/141 with Insolvency and Bankruptcy Board of India (IBBI) providing valuation for following asset classes:

(i) Securities and Financial Assets
(ii) Land and Building
(iii) Plant and Machinery

INMACS Valuers is a member of IOV Registered Valuer Foundation (IBBI Registration Number: IBBI/RVO/2017/002) for all the classes listed above in pursuance of Section 247 of Companies Act, 2013 read with Companies (Registered Valuers and Valuation) Rules, 2017.

We are pleased to submit this report outlining the scope, procedures, significant considerations, short description of methodology used and the valuation analysis/results.

This report has been prepared only for the purpose stated herein and should not be relied for any other purpose.

The valuation analysis is based on information provided by the Management or obtained from sources as indicated in the report. Our work did not constitute an audit or an examination of internal controls or other attestation or review services. Accordingly, we do not express an opinion on the information presented. Further, the report is based on projections prepared by the Management. We express no opinion as to how closely the actual results achieved will correspond to those predicted for the business and we shall not be responsible or liable for the achievement of predicted results. Our valuation analysis should not be construed as investment advice specifically, we do not express any opinion on the suitability or otherwise of entering into any financial or other transaction with POWERGRID Infrastructure Investment Trust.

By its very nature, valuation analysis cannot be regarded as an exact science and the conclusions arrived at are subject to individual judgement and, therefore, there is, no indisputable single value. Although the conclusions are in our opinion reasonable and defensible, others might wish to argue for different values.

Our valuation and conclusion are included herein, and our Report complies with the SEBI (Infrastructure Investment Trust) Regulations, 2014 and guidelines, circular or notification issued by SEBI there under.

This letter, the Report and the summary of valuation included herein can be provided to Investment Manager's advisors and may be made available for the inspection to the public including but not limited to Unitholders, as a material document and with the Securities and Exchange Board of India, the stock exchanges and any other regulatory and supervisory authority, as may be required.

The valuation methodologies and approaches adopted by us are widely recognised and used. They are in compliance with Valuation standards issued by The Institute of Chartered Accountants of India and International Valuation Standards issued by International Valuation Standards Council (IVSC) and are accepted across India and internationally.

We would also like to record appreciation for the courtesy and co-operation received during the course of our work and look forward to continuing professional association.

B. Transmission Assets Overview

Vizag Transmission Limited formerly: POWERGRID Vizag Transmission Limited	**Inc. Date: November 30, 2011** **COD: February 01, 2017** • Established to setup transmission system for system strengthening in the southern region of India for import of power from the eastern region of India. • Transmission lines length: 956.84 ckm > 765 kV D/C line of 668 ckm from Srikakulam to Vemagiri in Andhra Pradesh. > 400 kV D/C line of 288.84 ckm from Khammam (Telangana) to Nagarjuna Sagar (Andhra Pradesh) • PGInvIT acquired the remaining 26% equity shareholding in VTL on 31st March 2022. The Trust now holds 100% stake in VTL
POWERGRID Kala Amb Transmission Limited	**Inc. Date: July 29, 2013** **COD: July 12, 2017** • Established to setup Transmission system for Northern Region System Strengthening Scheme NRSS- XXXI (Part A) • 2.47 ckm of transmission line comprising LILO of 400 kV D/C Karcham Wangtoo-Abdullapur transmission line at Kala Amb (Himachal Pradesh) substation (on M/C towers) • In addition, the project includes one 400/220 kV substation of an aggregate transformation capacity of 630 MVA in Kala Amb (Himachal Pradesh), and 40% series compensation on 400 kV D/C line from Karcham Wangtoo (Himachal Pradesh) to Kala Amb (Himachal Pradesh) • PKATL has been allotted a project 'Implementation of One no. 125 MVAr, 420 kV Bus Reactor at Kala Amb substation' by Ministry of Power, GoI under Regulated Tariff Mechanism. The project was notified on March 5, 2019. PKATL was granted a separate transmission licence for the project by Hon'ble CERC vide its order dated March 22, 2022.
POWERGRID Parli Transmission Limited	**Inc. Date: July 30, 2014** **COD: June 4, 2018** • Established to setup Transmission system associated with Gadarwara STPS (2x800 MW) of NTPC (Part-B) • Transmission lines length: 966.12 ckm > 765 kV D/C line of 693.70 ckm from Warora to Parli in Maharashtra > 765 kV D/C line of 235.92 ckm from Parli to Solapur in Maharashtra > 400 kV D/C line of 36.50 ckm from Parli (New) to Parli (PG) in Maharashtra • In addition, the project includes one 765/400 kV substation of an aggregate transformation capacity of 3,000 MVA at Parli (Maharashtra)

	Inc. Date: August 05, 2014 **COD: July 10, 2018** • Established to setup Transmission system associated with Gadarwara STPS (2x800 MW) of NTPC (Part-A) • Transmission lines length: 1,028.11 ckm > 765 kV D/C line of 204.47 ckm from Gadarwara to Jabalpur in Madhya Pradesh (MP), including interim arrangement > 765 kV D/C line of 627.35 ckm from Gadarwara (MP) to Warora (Maharashtra) > Two 400 kV D/C lines comprising LILO of both circuits of 400 kV D/C Wardha-Parli (PG) line aggregating 196.29 ckm from LILO point of 400 kV D/C Quad Wardha-Parli transmission line to Warora pooling station • In addition, the project includes one 765/400 kV substation of an aggregate transformation capacity of 3,000 MVA in Warora (Maharashtra)
POWERGRID Warora Transmission Limited	
	Inc. Date: August 14, 2014 **COD: January 1, 2019** • Established to setup Transmission system strengthening associated with Vindhyachal-V • Transmission lines length: 745.05 ckm > 765 kV D/C line from Vindhyachal to Jabalpur in Madhya Pradesh.
POWERGRID Jabalpur Transmission Limited

This executive summary should be read in conjunction with the following full report and not in isolation.

1. Background, Purpose and Appointment

POWERGRID Infrastructure Investment Trust (hereinafter referred to as 'PGInvIT' or "Trust') was settled by Power Grid Corporation of India Limited (hereinafter referred to as' PGCIL') as an irrevocable trust setup pursuant to the Trust Deed, under the provisions of the Indian Trusts Act, 1882.

The Trust was registered with Securities and Exchange Board of India ("SEBI") on January 7, 2021 as an infrastructure investment trust under Regulation 3(1) of the InvIT Regulations having registration number IN/InvIT/20-21/0016.

PGInvIT came out with an initial public offering of its units which opened on April 29th, 2021 and closed on May 3rd, 2021. The units were listed on NSE and BSE on May 14th, 2021 and are actively traded as on date of valuation.

As per provisions of Regulation 21(5) of the SEBI (Infrastructure Investment Trust) Regulations, 2014:

"A half yearly valuation of the assets of the InvIT shall be conducted by the valuer for the half-year ending September 30th for a publicly offered InvIT for incorporating any key changes in the previous six months and such half yearly valuation report shall be prepared within one month from the date of end of such half year."

In this regard, the Investment Manager and the Trustee intend to undertake the fair valuation of the transmission asset portfolio (hereinafter also referred to as 'Specified SPVs' collectively) as on September 30th, 2023.

We, INMACS Valuers Private Limited (hereinafter referred to as 'We', 'INMACS' or 'Valuer') have been appointed as independent valuer for POWERGRID Infrastructure Investment Trust vide letter of award dated August 01st, 2022 bearing reference no. 5006003197/OTHERS/DOM/A02-CC CS-3/NOA/01 in pursuance of provisions of the SEBI (Infrastructure Investment Trust) Regulations, 2014 by the Investment Manager to PGInvIT in consultation with the Trustee.

INMACS Valuers is a registered valuer entity registered vide IBBI/RV-E/02/2021/141 with Insolvency and Bankruptcy Board of India (IBBI) providing valuation for following asset classes:

a) Securities and Financial Assets
b) Land and Building
c) Plant and Machinery

Date of valuation for the above-mentioned purpose shall be **September 30th, 2023.**

2. Valuer's Pecuniary Disclosure and Independence

The Valuer has no pecuniary interest in the said Trust, its sponsor, investment manager, project manager, trustee or and any of the Companies in which the investment is made by it. The opinion expressed is free of any bias in this regard. The Valuer strictly follows the code of conduct of the Registered Valuation Organization of Insolvency and Bankruptcy Board of India (IBBI).

Furthermore, Valuer declares that:

- We are competent to undertake the financial valuation in terms of the SEBI InvIT Regulations; and
- We are an independent registered valuer entity and have prepared the Report on a fair and unbiased basis.

3. Sources of information

Our valuation exercise is based on the following information received from the Management:

- Limited reviewed but unaudited financial statements of specified SPV's for the period April 01st,2023 to September 30th, 2023.
- Audited Financial Statements of Specified SPVs for the period ended on March 31st, 2023.
- Investment Manager approved financial projections and business plans of Specified SPVs for the balance tenor of their Transmission Services Agreement ('TSA') (refer table below)

Specified SPV	Tenor of Transmission Service Agreement ("TSA")
Vizag Transmission Limited	31 January, 2052
POWERGRID Kala Amb Transmission Limited	11 July, 2052
POWERGRID Parli Transmission Limited	03 June, 2053
POWERGRID Warora Transmission Limited	09 July, 2053
POWERGRID Jabalpur Transmission Limited	31 December, 2053

- Copy of TSA, order for adoption of transmission charges, project implementation and management agreement, operations and maintenance agreement.
- Discussions with the Management on various issues relevant for the valuation.
- Information about the SPV's, PGInvIT available in public domain.
- Such other information and explanation as requested by us and as provided by the Management.

4. Valuation procedures

We have carried out the valuations exercise, to the extent applicable, in accordance with ICAI Valuation Standards, 2018 ("ICAI VS") issued by the Institute of Chartered Accountants of India and in concurrence with International Valuation Standards.

- ✓ We have made a thorough understanding of the structure of trust by studying the trust deed along with supporting documents.

- ✓ We have made an in-depth study of the financial projections and business plans prepared by management. These have additionally been validated and sanity tested.
- ✓ Held discussion with the Management to the inter-alia understand the historical and expected performance of the Specified SPVs, along with the key factors affecting the performance, through extensive discussion meetings with management
- ✓ We have considered key terms of TSA
- ✓ Drawn an analysis of the key economic and industry factors which may affect the valuation.
- ✓ Analysed the relevant information in respect of the comparable companies/ comparable transactions, available in public domain/ subscribed databases.
- ✓ Appropriate and relevant valuation approach and valuation methodology/(ies) were adopted. Furthermore they were in accordance with ICAI VS.
- ✓ Determined the Enterprise Value and Equity Value of these Specified SPVs to determine the fair value of transmission asset portfolio of the Trust.
- ✓ The detailed valuation report have been prepared after conducting virtual inspection of infrastructure projects by the valuer.

5. Economy and Industry Overview

5.1 Economy Outlook

India has emerged as the fastest-growing major economy in the world, and is expected to be one of the top three economic powers globally over the next 10-15 years, backed by its robust democracy and strong partnerships.

India is primarily a domestic demand-driven economy, with consumption and investments contributing 70% to the country's economic activity.

Estimated Real GDP growth in FY 2022-23 stands at 7% and GDP growth of 6.0% to 6.8% is expected in 2023-24. The optimistic growth forecasts stem from a number of positives like the rebound of private consumption given a boost to production activity, higher Capital Expenditure (Capex), near-universal vaccination coverage enabling people to spend on contact-based services, such as restaurants, hotels, shopping malls, and cinemas, as well as the return of migrant workers to cities to work in construction sites leading to a significant decline in housing market inventory, the strengthening of the balance sheets of the Corporates, a well-capitalised public sector banks ready to increase the credit supply and the credit growth to the Micro, Small, and Medium Enterprises (MSME) sector to name the major ones.

According to our estimates, India will need at least 6.5% growth to reach its first milestone in 2027 and about 8%–9% growth to reach the second in 2047. The buoyancy in the economy instils confidence that the country, at least in the short run, will likely achieve these numbers. The pace in the first few years will be critical for a sustained, fast-growth trajectory in the long run

Real GDP or GDP at Constant (2011-12) Prices in Q1 2023-24 is estimated to attain a level of ₹ 40.37 lakh crore, as against ₹ 37.44 lakh crore in Q1 2022-23, showing a growth of 7.8 percent as compared to 13.1 percent in Q1 2022-23. Nominal GDP or GDP at Current Prices in Q1 2023-24 is estimated at ₹ 70.67 lakh crore, as against ₹ 65.42 lakh crore in Q1 2022-23, showing a growth of 8.0 percent as compared to 27.7 percent in Q1 2022-23.

India's total installed renewable energy capacity touched 172 GW mark by March 2023-end.The government's aim is to achieve 500 GW of installed electricity capacity from non-fossil sources by 2030.

The labour force participation rate (LFPR) is at a four-quarter high of 48.8%, compared to 47.5% in the same quarter of the previous year. The joblessness rate in urban areas for people aged 15 years and above stood at 6.6% in the April-June 2023 period, compared to 7.6% in the same quarter last year, the ministry of statistics and programme implementation's four-monthly periodic labour force survey (PLFS) showed.

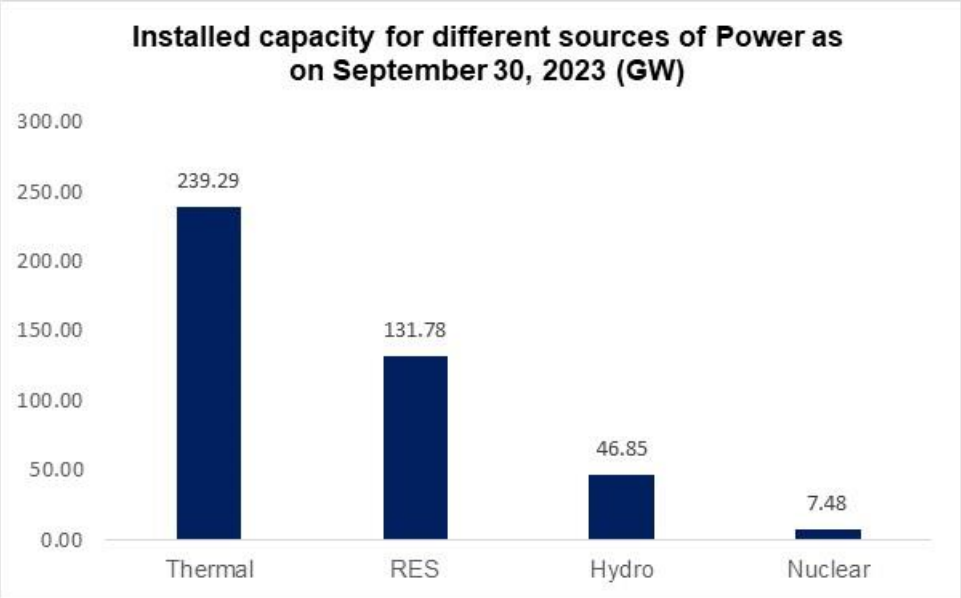

On a BoP basis (i.e., excluding valuation effects) foreign exchange reserves increased by US$ 24.4 billion during April-June 2023 as compared with an accretion of US$ 4.6 billion during April-June 2022. Foreign exchange reserves in nominal terms (including valuation effects) increased by US$ 16.6 billion during April-June 2023 as against a decrease of US$ 18.2 billion in the corresponding period of the preceding year. The valuation loss, primarily reflecting the appreciation of the US dollar against major currencies, amounted to US$ 7.8 billion during April-June 2023 as compared with a valuation loss of US$ 22.7 billion during April-June 2022.

5.1 Industry Overview

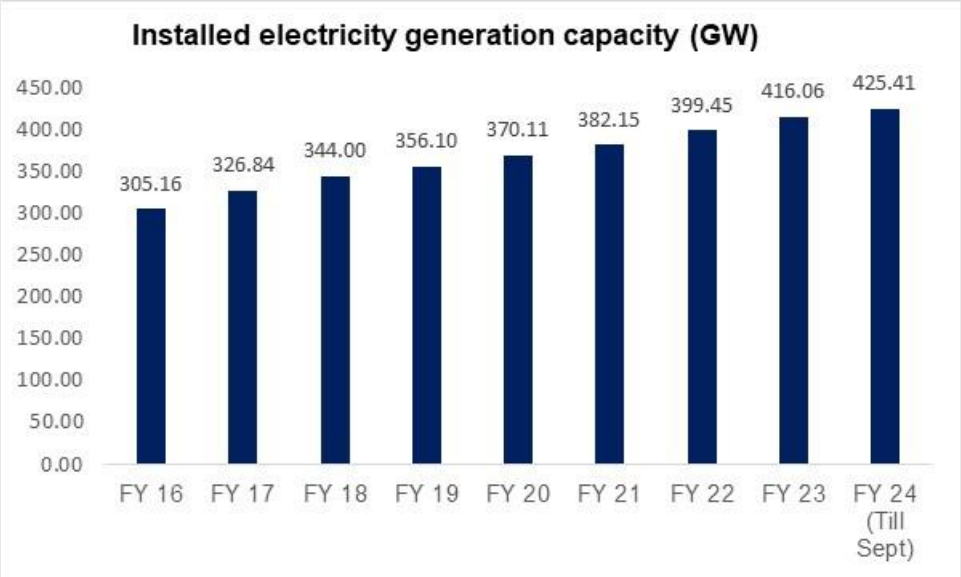

The assets/ or SPVs being subjected to valuation belongs to Transmission Sector in Power Industry in India

Power Industry
India is third largest producer and consumer of electricity in the world. Its power sector is one of the most diversified in the world, which includes power generation from conventional sources (coal, lignite, natural gas, oil, hydro and nuclear power) and non-conventional sources (wind, solar, and agricultural and domestic waste).

As on September 30st, 2023, the total installed capacity of power stations in India stood at 425.41 GW.

Source: CEA

Source: CEA

Installed capacity has increased steadily over the years, posting a CAGR of 4.5% between FY2016 - FY2024 (till Sept)

The fuel-wise installed generation capacity from fossil fuels like coal, lignite, gas and diesel stood at 239.29 GW, whereas non-fossil fuels like hydro, small hydro, wind, solar, waste-to-energy and other renewable energy, including nuclear energy, contributed to 186.11 GW.

The electricity generation target (Including RE) for the year 2023-24 has been fixed as 1750 Billion Unit (BU). i.e. growth of around 7.2% over actual generation of 1624.158 BU for the previous year (2022-23). The generation during 2022-23 was 1624.158 BU as compared to 1491.859 BU generated during 2021-22, representing a growth of about 8.87%.

All India actual PLF of thermal power plants stood at 63.77% in September 2023.

As per POSOCO as on September 2023, India experienced an extraordinary surge in electricity demand, peaking at 239.98 GW. This level of demand marked a significant increase compared to previous years and set a new record for the region.

As per the updated NDC, India now stands committed to reduce Emissions Intensity of its GDP by 45 percent by 2030, from 2005 level and achieve about 50 percent cumulative electric power installed capacity from non-fossil fuel-based energy resources by 2030.

A growing population coupled with increasing electrification and per-capita electricity usage will drive the demand for electricity, along with increased industrial activity.

Foreign Direct investment (FDI) in India's renewable energy sector stood at $838 million (~₹69.2 billion) in the fourth quarter (Q4) of the financial year (FY) 2023, a 102% increase year-over-year (YoY) compared to $415 million (~₹32.1 billion).

FDI in India's renewable energy sector for FY23 stood at $2.5 billion (~206.5 billion), a 56% increase YoY compared to $1.6 billion (~121 billion). The investment is the highest ever in the Indian renewable sector in a year.

The rise in FDI in the renewable energy sector can be attributed to the Indian government's ambitious target of achieving 500 GW of renewable energy capacity by 2030, attracting significant interest from foreign investors and showcasing the sector's vast potential.

The cumulative FDI inflow in the renewable sector stood at $13.3 trillion (~₴1.02 trillion) from April 2010 to March 2023. Foreign investments of up to 100% in the renewables sector are permitted under the automatic route, with no prior approvals required.

According to a World Economic Forum report, India's transition towards a net-zero economy could contribute over $1 trillion (~782.8 trillion) by 2030 and $15 trillion (~₴1,242 trillion) by 2070 in economic impact.

100% FDI allowed in the power sector has boosted FDI inflow in this sector. Electrification in the country is increasing with support from schemes like Deen Dayal Upadhyay Gram Jyoti Yojana (DDUGJY), Ujwal DISCOM Assurance Yojana (UDAY), and Integrated Power Development Scheme (IPDS).

In the Union Budget 2022-23, A total of Rs.19,700 crore has been earmarked for the National Green Hydrogen Mission to help the economy shift from fossil fuels to green power. By 2030, the country is expected to have a decrease in the carbon intensity of less than 45%. The government also aims at achieving net-zero carbon emissions by 2070.

Investment of Rs. 20,700 crore including central support of Rs. 8,300 crore for strengthening of interstate transmission system for evacuation and Grid Integration of 13 GW renewable energy from Ladakh.

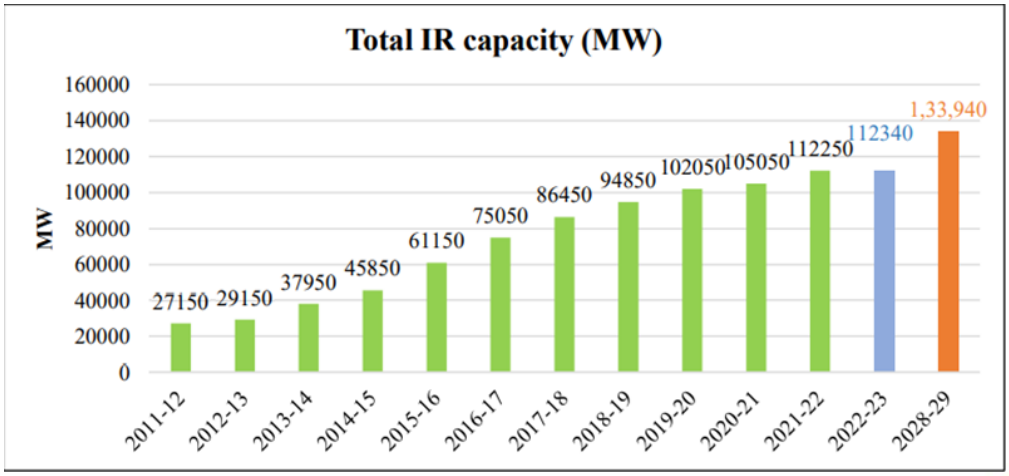

Transmission Sector

In India, the transmission system is a two-tier structure comprising intra-state grids and interstate transmission system (ISTS) grids, in addition to a few dedicated transmission lines.

The Indian power system is divided into five regions namely the northern, eastern, western, southern and north-eastern regions. Presently, all the five regional grids viz. northern, eastern, western, southern and north-eastern regions are operating in one synchronous mode.

India has added 5206 circuit kilometers and 22,126 MVA of new transformation capacity in the fiscal year 2023-24 (till sept).

The progressive growth in Inter-Regional (IR) transmission capacity from 2011-12 till 2028-29 is given in below figure. As on 2022-23 IR transmission capacity is 112 GW which is expected to increase to 134 GW by 2028-29.

Source- Central Transmission Utility of India Limited

Placed critically between the generation and distribution, transmission plays a pivotal role in ensuring energy delivery to the centres of consumption. India's shift to a cleaner economy is bound to create a need for a robust grid to connect the renewable energy rich centres in the West and South to the demand centres in the North and the West. Unlike conventional thermal capacity, which requires 4-6 years for commissioning, renewables require ~2 years to develop. Consequently, pace of transmission build-out will require expediting to keep pace with the growing renewable mix. In alignment with this, the CTU in its ISTS Rolling Plan for 2027-28 (March 2023) has identified transmission schemes comprising of 41,234 ckm of transmission lines and transformation capacity of 3,82,905 MVA at estimated cost of Rs. 2,214,92 crore including planned and under-construction ISTS network. Breakup of the addition of assets to be added as per Inter-State Transmission System (ISTS) Rolling Plan for 2027-28 is as per the below schedule.

S. No.	Financial year	ckm addition	MVA addition	Estimated cost(in crore)
1	2023-24	8,888	56,135	256,80
2	2024-25	10,247	98,485	360,96
3	2025-26	12,177	1,46,880	788,86
4	2026-27	7,894	74,775	538,63
5	2027-28	2,028	6,630	269,67
Total		41,234	3,82,905	2,214,92

The Transmission sector is poised for sustained growth as is visible from the above mentioned Rolling Plan of CTUIL for 2027-28.Transmission Sector growth is also evidenced from CEA's Report on Transmission System for Integration of over 500 GW RE Capacity by 2030 released in December 2022. The CEA Report estimates additional 50,890 ckm and 4,33,575 MVA respectively at an estimated cost of Rs 2,44,200 crore during the period Nov'22 to 2030. This transmission requirement corresponds to ISTS transmission schemes for (a) 66.5 GW RE capacity (excluding commissioned transmission schemes) which are under various stages of implementation and new RE capacity of about 237 GW.

Further, inter-regional transmission capacity is envisaged to grow from current 1,12,250 MW to about 1,50,000 MW in 2030.

6. About POWERGRID Infrastructure Investment Trust

POWERGRID Infrastructure Investment Trust (hereinafter referred to as 'PGInvIT' or, 'Trust') was settled by Power Grid Corporation of India Limited (hereinafter referred to as 'PGCIL') as an irrevocable trust setup pursuant to the Trust Deed, under the provisions of the Indian Trusts Act, 1882.

The Trust was registered with Securities and Exchange Board of India ("SEBI") on January 7, 2021 as an infrastructure investment trust under Regulation 3(1) of the InvIT Regulations having registration number IN/InvIT/20-21/0016.

The Trust has been setup to own, construct, operate, maintain and invest as an Infrastructure Investment Trust (InvIT) as permissible under SEBI InvIT Regulations, including in power transmission assets in India.

The underlying assets of the Trust presently include five inter-State Transmission System (ISTS) projects (hereinafter referred to as 'Special Purpose Vehicles' or 'SPVs') implemented under the Tariff Based Competitive Bidding (TBCB) mechanism.

Power Grid Corporation of India Limited (PGCIL), a Maharatna CPSE under Ministry of Power, Government of India is the Sponsor of PGInvIT. The Sponsor's equity shares are listed on BSE and NSE.

POWERGRID Unchahar Transmission Limited (hereinafter referred to as 'PUTL'), a wholly owned subsidiary of PGCIL has been appointed as Investment Manager to the Trust. PUTL owns and operates 106.74 ckm transmission project implemented under tariff based competitive bidding mechanism and thus, carries the experience of industry and in-depth insights about the operations of the business of the infrastructure assets which forms the part of the investment portfolio of the Trust.

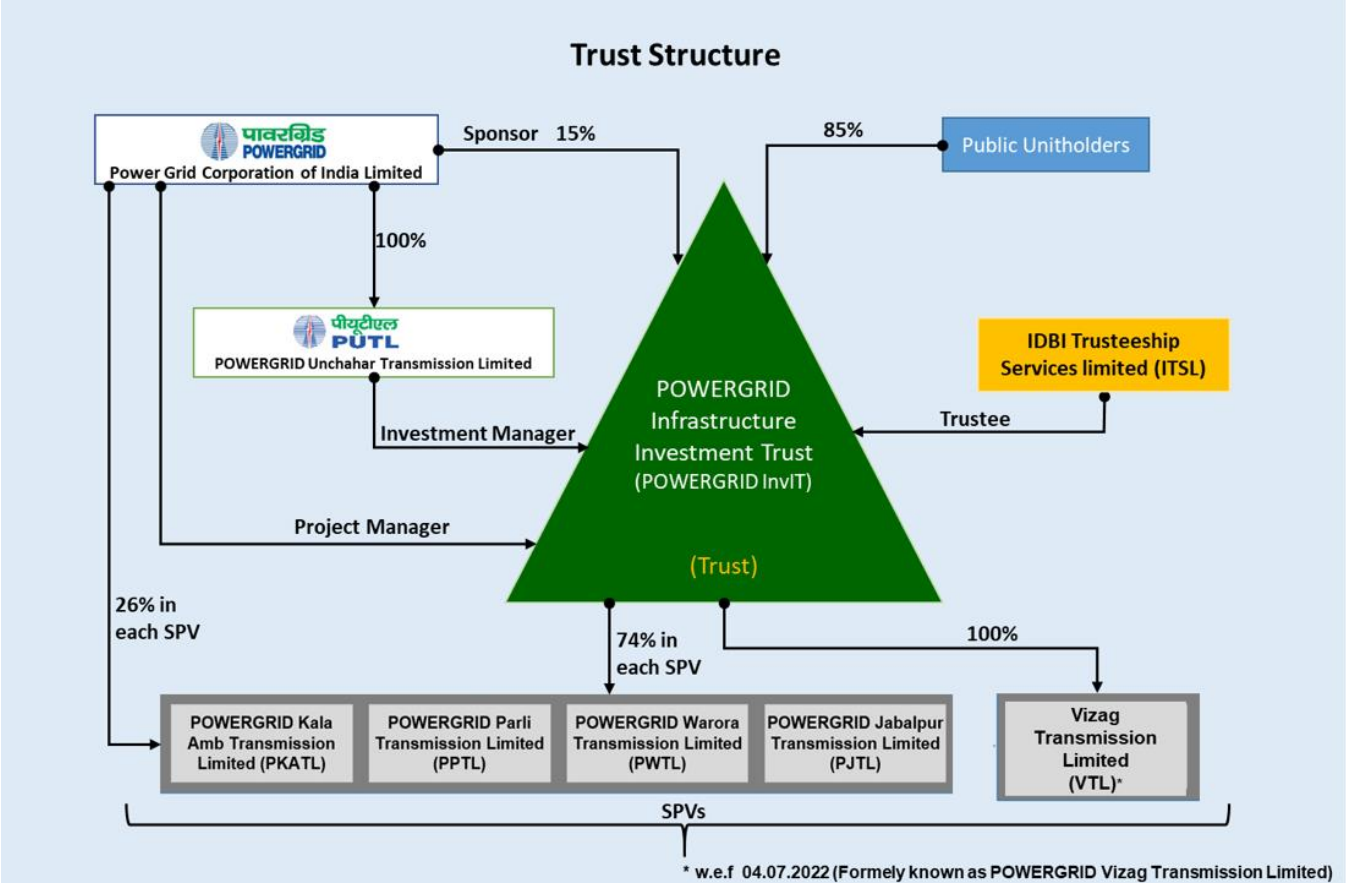

Power Grid Corporation of India Limited (PGCIL) is also appointed as Project Manager in respect of the Trust.

IDBI Trusteeship Services Limited, registered with SEBI under the Securities and Exchange Board of India (Debenture Trustee) Regulations, 1993 has been engaged as Trustee to the Trust.

PGInvIT came out with an initial public offering of its units which opened on April 29th, 2021 and closed on May 3rd, 2021.

The structure of PGInvIT is as follows:

The unitholding pattern of the Trust is as follows:

Category of unit holder	No. of units held	% Holding
Sponsor(s)/Manger and their associates/related parties and sponsor Group		
Indian	13,65,00,100	0.15
Total unitholding of Sponsor & Sponsor Group	13,65,00,100	15.00
Public holding - Institutions		
Mutual Funds	4,69,65,747	5.16
Financial institutions or banks	11,05,000	0.12
Insurance companies	8,12,43,333	8.93
Provident or Pension fund	6,71,52,805	7.38
Foreign Portfolio Investors	19,22,48,275	21.13
Any other institutions unitholding	2,27,20,199	2.49
Total instituions unitholding	41,14,35,359	45.21
Public holding - Non Institutions		
Individuals	24,57,49,909	27.01
NBFCs registered with RBI	4,59,400	0.05
Other non-institutions unitholding	11,58,54,432	12.73
Total non-Institutions	36,20,63,741	39.79
Total	90,99,99,200	100.00

Unitholding pattern reported as on September 30,2023

The Asset Portfolio

The Portfolio Assets comprise five power transmission projects located across five states of India. The projects comprise 11 transmission lines, including six 765 kV transmission lines and five 400 kV transmission lines, with a total circuit length of approximately 3,698.59 ckm, and three substations with 6,630 MVA of an aggregate transformation capacity and 1,955.66 km of optical ground wire. Each of the Initial Portfolio Assets has in place a long-term TSA of 35 years from the Scheduled COD of the relevant Initial Portfolio Asset. Upon expiry of the term of a TSA, the relevant Initial Portfolio Asset can apply to CERC for renewal if it is not unilaterally extended by CERC.

PGInvIT had acquired 74% of equity shares stake in each of 5 SPVs from PGCIL pursuant to the IPO. The transfer of funds to the Sponsor towards consideration for acquisition of 74% equity holding was completed during May 2021. Subsequently, in March 2022, PGInvIT acquired balance 26% equity shares of one of the SPV, namely VTL, from its sponsor.

Below is the snapshot of Asset Portfolio of PGInvIT

Description	Vizag Transmission Limited	POWERGRID Kala Amb Transmision Limited	POWERGRID Parli Transmission Limited	POWERGRID Warora Transmission Limited	POWERGRID Jabalpur Transmission Limited
Location	Andhra Pradesh and Telangana	Himachal Pradesh	Maharashtra	Madhya Pradesh and Maharashtra	Madhya Pradesh

7. Valuation Base and Premise

7.1 Valuation Base

IVS 102 defines the Valuation Bases and prescribes the corresponding fundamental assumptions on which Valuation will be based and provide the premises of values.

IVS 102 provides three Valuation Bases which are required to be chosen by the Valuer considering the terms and purpose of the Valuation engagement

I. Fair Value: Price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the Valuation Date.
II. Participant Specific Value: Estimated value of an asset or liability after considering the advantages and disadvantages that may arise to the owner, identified participant or identified acquirer.
III. Liquidation Value: Amount that will be realized on sale of an asset or a group of assets when an actual / hypothetical termination of the business is contemplated / assumed.

Fair Value as per ICAI VS defined as under:

"Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the valuation date. "

7.2 Premise of Valuation

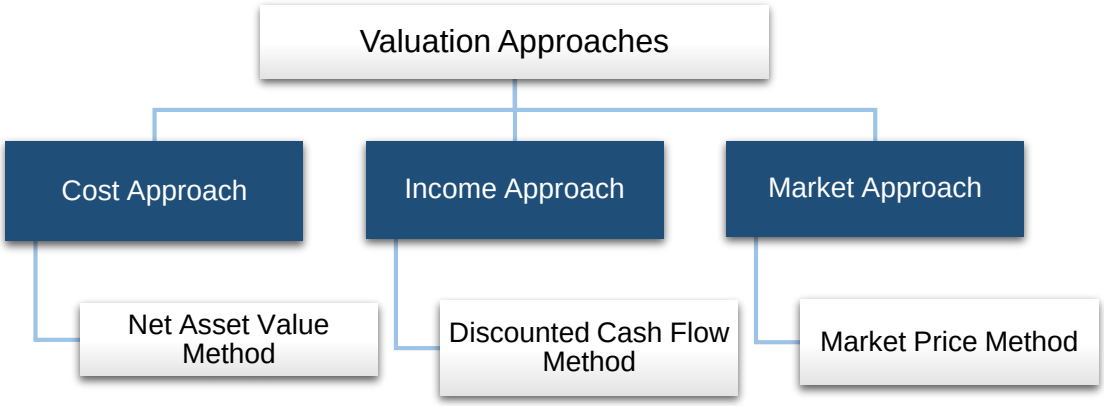

Premise of Value refers to the conditions and circumstances how an asset is deployed. The going concern value premise is defined as under:

"Going concern value is the value of a business enterprise that is expected to continue to operate in the future. The intangible elements of going concern value result from factors such as having a trained work force, an operational plant, the necessary licenses, systems, and procedures in place, etc".

8. Valuation Approaches

There are various methods adopted for valuing the underlying assets of an entity. Certain methods are based on asset value while certain other methods are based on the earnings potential of the asset. Each method proceeds on different fundamental assumptions which have greater or lesser relevance and at times even no relevance, to a given situation. Thus, the methods to be adopted for a particular valuation exercise must be judiciously chosen. The valuation approaches and methods shall be selected in a manner which will maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

8.1 Cost Approach

The cost approach reflects the amount that would be required currently to replace the service capacity of an asset. Often, the value of the business/asset is driven in terms of the investment that would be required to replace the assets they have assembled.

8.1.1 Net Asset Value ("NAV") Method

The Net Assets Value Method under cost approach derives the value of the overall business based on the value of the underlying assets and liabilities comprising the business (tangible and intangible assets, whether recorded on the balance sheet or not) on the valuation date.

8.2 Income Approach

Income approach is a valuation approach that converts maintainable or future amounts (e.g., cash flows or income, cost savings and expenses) to a single current (i.e., discounted or capitalised) amount. The fair value measurement is determined on the basis of the value indicated by current market expectations about those future amounts.

8.2.1 Discounted Cash Flow ("DCF") Method

The DCF method values the asset by discounting the cash flows expected to be generated by the asset or a business for the explicit forecast period and also the perpetuity value (or terminal value) in case of assets/business with indefinite life.

The DCF method is one of the most common methods for valuing various assets such as shares, businesses, debt instruments, etc.

This method involves discounting of future cash flows expected to be generated by an asset over its life using an appropriate discount rate to arrive at the present value.

The following are important inputs for the DCF method:

- Cash flows;
- Discount rate; and
- Terminal value

8.3 Market Approach

Market approach is a valuation approach that uses prices and other relevant information generated by market transactions involving identical or comparable (i.e., similar) assets, liabilities or a group of assets and liabilities, such as a business.

The following are some of the instances where a valuer applies the market approach:

a) where the asset to be valued or a comparable or identical asset is traded in the active market;
b) there is a recent, orderly transaction in the asset to be valued; or
c) there are recent comparable orderly transactions in identical or comparable asset(s) and information for the same is available and reliable

8.3.1 Market Price Method

Under Market Price method the traded price observed over a reasonable period while valuing assets which are traded in the active market is considered.

The market price of an asset as quoted in an active market is normally considered as the fair value of said asset where such quotations are arising from the asset being regularly and freely traded in, subject to the element of speculative support that maybe inbuilt in the value of the asset.

As per **ICAI Valuation Standard- 301: Business Valuation:**

Enterprise Value: Enterprise Value is the value attributable to the equity shareholders plus the value of debt and debt like items, minority interest, preference share less the amount of non-operating cash and cash equivalents.

Business Value: Business value is the value of the business attributable to all its shareholders

Equity Value**:** Equity Value is the value of the business attributable to equity shareholders.

As per International Valuation Standard **IVS 200 Businesses and Business Interests**

Enterprise value: Often described as the total value of the equity in a business plus the value of its debt or debt-related liabilities, minus any cash or cash equivalents available to meet those liabilities.

Total invested capital value: The total amount of money currently invested in a business, regardless of the source, often reflected as the value of total assets less current liabilities and cash.

Operating Value: The total value of the operations of the business, excluding the value of any non-operating assets and liabilities.

Equity value: The value of a business to all of its equity shareholders.

9. Valuation Analysis

9.1 The adopted approaches

After analyzing the above-mentioned approaches and gaining understanding of the Trust structure, we derive that the Specified SPVs are to be valued at enterprise level as a going concern taking into consideration all the future aspects of the business.

These Specified SPVs are not listed on any stock exchange. Thus, active market prices are not available for the equity shares of the company, hence Market Price Method cannot be applied.

Taking into consideration other observable inputs available and the fact that these Specified SPVs are not under liquidation or facing any kind of distress, the cost approach will not provide reliable value.

The Investment Manager has shared the financial projections for the balance tenor of TSA. Therefore, we conclude that employing discounted cash flow method under income approach will be the most suitable method and approach in this case as it serves as an indicator of the prospective return that the business is able to generate in the future. The discounted cash flow method is very effective because it allows values to be determined even when cash flows are fluctuating.

The DCF method uses the future free cash flows of the firm holders discounted by the cost of capital to arrive at the present value. In general, the DCF method is a strong and widely accepted valuation tool, as it concentrates on cash generation potential of a business. This method is based on future potential and is widely accepted.

The valuation premises, basis, approaches and methods for respective Specified SPVs is adopted as below:

Particulars	Vizag Transmission Limited	POWERGRID Kala Amb Transmission Limited	POWERGRID Parli Transmission Limited	POWERGRID Warora Transmission Limited	POWERGRID Jabalpur Transmission Limited
Valuation Base	Fair Value	Fair Value	Fair Value	Fair Value	Fair Value
Valuation Premise	Going Concern	Going Concern	Going Concern	Going Concern	Going Concern
Valuation Approach	Income Approach	Income Approach	Income Approach	Income Approach	Income Approach
Method Adopted	Discounted Cash Flow Method	Discounted Cash Flow Method	Discounted Cash Flow Method	Discounted Cash Flow Method	Discounted Cash Flow Method

9.2 Discounted Cash Flows Method: Critical Inputs

As discussed earlier, the following are important inputs for the DCF method:

- Cash flows;
- Discount rate; and
- Terminal value and growth rate

9.2.1 Future Free Cash Flows:

The future free cash flows are derived considering, inter alia, the changes in the working capital and any capital expenditure. They are an aggregation of free cash flows of company during the explicit forecast period – prepared based on the business plan – and during the post explicit forecast period, estimated using an appropriate method, and are available to Company's shareholders.

Generally, in DCF there are two work-arounds for determining future free cash flows depending upon the valuation requirements, being:

- Free Cash Flow to Firm (FCFF)
- Free Cash Flow to Equity (FCFE)

We have opted Free Cash Flow to Firm (FCFF) for our valuation analysis. After determining the Free cash flow at present value we add up surplus assets and reduce the market value of debt as on date of valuation and other non-equity claims to arrive at the value of equity.

FCFF = NOPAT + Non-Cash Charges +/- Net Capital Expenditure +/- Non-Cash Working Capital Changes

9.2.2 Discount rate

The appropriate discount rate for discounting FCFF is Weighted Average Cost of Capital ('WACC'). Same has been applied to calculate values on September 30th, 2023.

Computation of WACC

$$WACC = K_d \times (1-t) \times W_d + K_e \times W_e$$

Where
K_d = Estimated pre-tax cost of debt
t = applicable corporate tax rate
W_d = (Debt/(Debt+Equity))
K_e = Cost of Equity
W_e = (Equity/(Debt+Equity))
D = market value of debt
E= market value of equity

9.2.3 Cost of Debt

The cost of debt is the rate at which the company is able to raise debt. A number of methods can be employed to determine a company's cost of debt be it the actual cost at which company has raise the debt or matrix pricing method.

9.2.4 Cost of Equity

Cost of equity has been estimated based on the capital asset pricing model i.e. CAPM. This model calculates the cost of equity of a Company as the sum of the risk-free rate and a Company specific equity risk premium, the later of which represents the risk of company in question as compared to the market risk premium

Calculation of Cost of Equity by employing CAPM

$$\text{Cost of Equity} = Rf + \beta\,(Rm - Rf)$$

Where:	
Rf	Risk Free Rate
β /Beta	A measure of observed volatility of the company compared to the market
(Rm-Rf)	It is Equity or Market Risk Premium

Below is the summary of WACC:

Parameter	Abv	VTL	PKATL	PPTL	PWTL	PJTL	Remarks
Cost of Equity	Ke	10.42%	10.42%	10.42%	10.42%	10.42%	Capital Asset Pricing Model

Equity Risk Premium (Rating)		**8.33%**	http://www.stern.nyu.edu/~adamodar/New_Home_Page/data.html

Notes:

1. The current cost of debt of Specified SPVs comes to be 14.50% as a result of arrangement made between PGInvIT acting through its investment manager, the company and the Trustee of PGInvIT. As per the Facility agreement entered into between the Company, Investment manager and the Trustee, the Company shall, with prior notice to the Trustee, be entitled to prepay all or any portion of the outstanding principal amounts of the Loan, without any prepayment penalty or premium.

Therefore, in order to arrive at a fair value of the enterprise, we have considered this (6.29%) as post tax cost of debt for the company as reasonable basis in normal course of business without posing any advantage or disadvantage due to any special arrangement within the stakeholders.

9.2.5 Terminal Value

Terminal value represents the present value at the end of explicit forecast period of all subsequent cash flows to the end of the life of the asset or into perpetuity if the asset has an indefinite life.

We understand from the Management that the ownership of the project assets shall remain with Specified SPVs after completion of the term of the TSA and that the project assets will continue to have economic utility beyond the term of the TSA. Considering the aforementioned, terminal Value at the end of the forecast period has been estimated based on the projected annualized revenue and EBITDA margins in the last forecast year and assuming a long-term growth rate of 0% and maintainable capital expenditure equal to the annual depreciation during the forecast period.

10. DCF Valuation Analysis of Specified SPVs

10.1 Vizag Transmission Limited

10.1.1 About the company

Company	Vizag Transmission Limited
CIN	U40300DL2011GO1228136
Erstwhile name	POWERGRID Vizag Transmission Limited
Incorporation Date	November 30,2011
Gross Block as on September 30, 2023	₹ 13,097.79 Million
TSA date	May 14,2013
Scheduled COD	September 04,2016
Project COD	February 01,2017
Expiry date	35 years from the date of COD
PGInvIT shareholding	100%

Vizag Transmission Limited ('VTL') formerly POWERGRID Vizag Transmission Limited ('PVTL'), was incorporated on 30th November 2011. Vizag Transmission Limited entered into a transmission service agreement dated 14th May 2013 with its Long-Term Transmission Customers ('LTTCs') (the 'VTL TSA"' to strengthen transmission system in the southern region of India for import of power from the eastern region of India, on a Build Operate Own Maintain ('BOOM') basis.

The project was awarded on 31st July 2013, through the TBCB mechanism, for a 35-year period from the Scheduled COD (as extended pursuant to the letter issued by TANGEDCO dated 27th September 2017), i.e., 1st February 2017. VTL was granted a transmission license by the CERC on 8th January 2014.

Subsequently, VTL entered into a TSA dated 21st November 2015 with the CTU, inter-state transmission service customers, inter-state transmission service licensees and non-inter-state transmission service licensees whose assets have been certified as being used for inter-state transmission by the regional power committee ('RPCs'), and a revenue sharing agreement dated 21st November 2015 with the CTU.

VTL operates two transmission lines of 956.84 ckm comprising one 765 kV double circuit line of approximately 668 ckm from Srikakulam (Andhra Pradesh) to Vemagiri (Andhra Pradesh) and one 400 kV double circuit line of 288.84 ckm from Khammam (Telangana) to Nagarjuna Sagar (Andhra Pradesh)

PGInvIT acquired the remaining 26% equity shareholding in VTL on 31st March 2022 and the name changed from POWERGRID Vizag Transmission Limited ('PVTL') to Vizag Transmission Limited. The Trust now holds 100% equity shareholding in VTL.

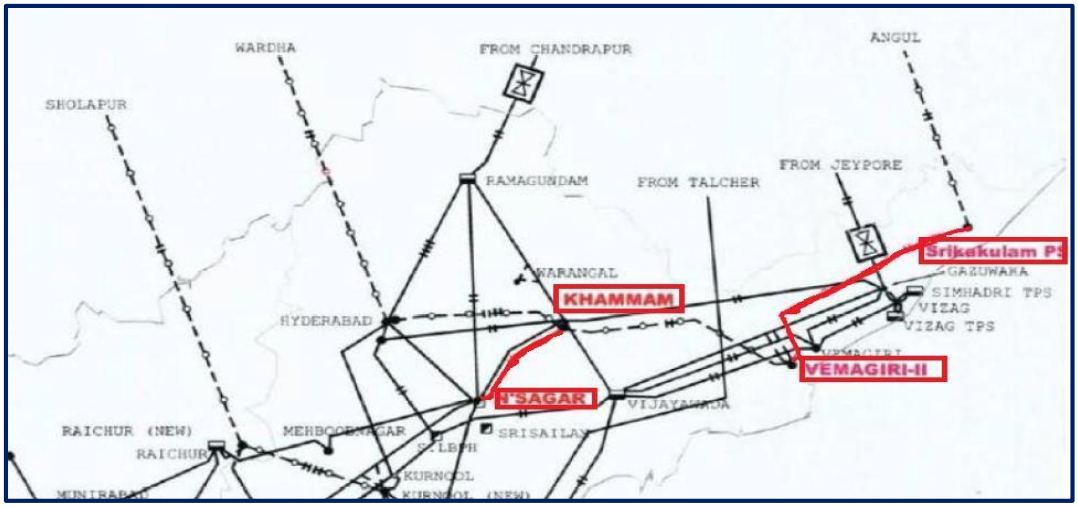

As of September 30th 2023, the Gross Block of Property, Plant and Equipment (including Intangibles) was ₹13,097.79 Mn.

All the elements have been successfully charged and Date of Commercial Operations (DOCO) declared as per details below:

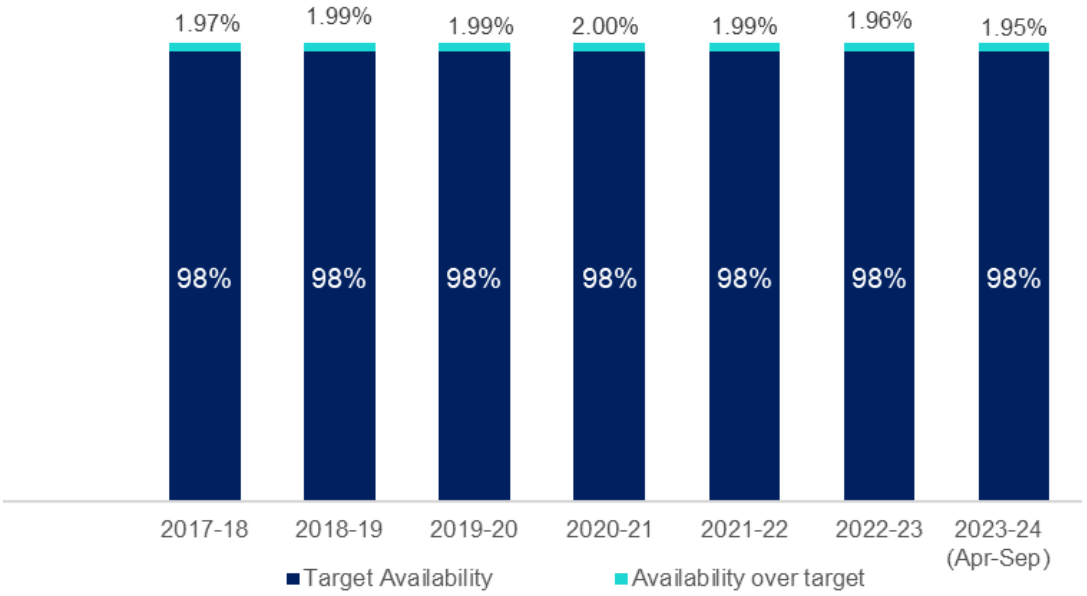

Transmission Line/ Substations	Location	Line length/ Capacity	Specifications	COD	Contribution to total transmission charges
Khammam (Existing) – Nagarjuna Sagar	Andhra Pradesh and Telangana	288.84	400 kV D/C	03-Jan-16	15.25%
Srikakulam PP –Vemagiri-II Pooling Station	Andhra Pradesh	668	765 kV D/C	01-Feb-17	84.75%

Source: Management inputs

GRID Map of "System Strengthening in Southern region for Import of power from Eastern Region".

Historical Average Annual Availability of VTL

Source: Management Input

Note: Average availability for FY 2023-24(Apr-Sep) is on provisional basis.

We have been provided with the financial projections of the VTL for balance tenor of the TSA i.e. uptill January 31st, 2052, therefore we have referred the same for our analysis. Estimation of the net cash flows of the company to be in explicit period based on these financial projections.

The projections of VTL are based on the following critical inputs

Inputs	Details
Transmission Revenue	Transmission revenue of VTL is provided in the TSA for the life of the project. It comprises non-escalable transmission revenue and escalable transmission revenue as follows:: a. Non-Escalable Transmission Revenue – It has been considered based on long term Transmission Service Agreement of VTL . We have corroborated the non-escalable transmission revenue provided by the Management in the financial projections with the TSA of VTL. b. Escalable Transmission Revenue – It is the revenue component where revenue is escalated each year based on the escalation index which is computed as per the annualized escalation rate notified by the CERC every 6 months. This escalation is done mainly to compensate VTL for inflation. A half yearly cumulative escalation rate of 5.97% for the forecast period beginning 1st October 2023 has been considered, which is based on the average of historical rates notified by the CERC for the period 1st October 2018 to 30th September 2023.

Inputs	Details
Incentive	As per the TSA, if the availability in a contract year exceeds the target availability of 98%, VTL shall be entitled to an annual incentive as follows: Incentive = 0.02 X Annual Transmission Charges X (Actual Annual Availability – Target Availability) No incentive shall be payable above the availability of 99.75%. Management expects the annual availability for VTL at or above 99.75% during the forecast period.
Penalty	If the availability in any contract year falls below 95%, VTL shall be penalised as per the TSA. As represented to us by the Management, the availability in any contract year shall not fall below 95% during the forecast period and thus the penalty has not been considered in the financial projections.
Operations & Maintenance ("O&M") Expenses	O&M expenses for VTL have been estimated by the Management at INR 38.99 Mn in FY2024. During the forecast period, these expenses have been escalated at the rate of 3.51% per annum as per O&M Agreement and Management estimates. We have relied on the projections provided by the Management.
Project Management ("PM") Expenses	Project Management expenses for VTL have been estimated by the Management at INR 5.85 Mn in FY2024. During the forecast period, these expenses have been escalated at the rate of 3.51% per annum as per Project Implementation and Management Agreement. We have relied on the projections provided by the Management.
License fees	Annual License fee has been estimated by the Management for the forecast period at 0.11% of Annual Transmission Charges as provided under the CERC regulations.
Insurance Expenses	Insurance expenses for VTL have been estimated by the Management (based on the invoice obtained from insurer) as INR 61.99 Mn in FY2024. Insurance expenses are expected to be constant throughout the life of the project.
Key Managerial Personnel Expenses	Key Managerial Personnel Expenses for VTL have been estimated by the Management as INR 2.70 Mn in FY2024. During the forecast period, these expenses have been escalated at the rate of 6.50% per annum.
System and Market Operation Charges	System and Market Operation Charges for VTL have been estimated by the Management as INR 6.48 Mn in FY2024. During the forecast period, these expenses have been escalated at the rate of 6.50% per annum.

Inputs	Details
Audit Expenses	Audit Expenses for VTL have been estimated by the Management as INR 0.28 Mn in FY2024. During the forecast period, these expenses have been escalated at the rate of 10% per annum.
Other Administrative Expenses and OtherExpenses	Other Administrative Expenses and Other Expenses for VTL have been estimated by the Management as INR 0.78 Mn in FY2024. During the forecast period, these expenses have been escalated at the rate of 10% per annum.
Breakdown Contingencies	The Management has estimated that an amount of INR 0.50 Mn per annum shall be spent with respect to breakdown contingencies for VTL during the forecast period.
CSR Expense	As per the provisions of Section 135 of the Companies Act 2013, a CSR Expense of 2% of the average profits for the past 3 years for VTL has been considered.
Depreciation	Depreciation is being calculated using the StraightLine Method over the life of the project considering a salvage value of 5% as per the Companies Act, 2013. For calculating depreciation as per the Income Tax Act for the projected period, depreciation rate as specified in the Income Tax Act and WDV as per Income Tax Return filed by VTL has been considered. VTL is expected to incur certain maintenance capital expenditure during the forecast period. The effect of the same has been considered while computing both book and income tax depreciation.
Tax Rates	VTL shall pay taxes as follows over the forecast period:
Tax Incentive	VTL is eligible for tax holiday under section 80IA of Income Tax Act. Such tax holiday shall be available for any 10 consecutive years out of 15 years beginning from the date of COD. For VTL, the tax holiday benefit proposed to be claimed as follows:

Regime	Period	Marginal Corporate Income Tax Rate
Old Regime	Till FY2045	29.12%
New Regime	FY2046 onwards	25.17%

Component	Tax Holiday period
Khammam (Existing) – Nagarjuna Sagar	FY2020-21 to FY2029-30
Srikakulam PP – Vemagiri-II Pooling Station	FY2021-22 to FY2030-31

Inputs	Details
Working Capital	The Management have envisaged the working capital requirement of VTL for the forecast period. The major operating working capital assumptions are as follows: a. Trade Receivables days – 45 days b. Unbilled Revenue days – 31 days
Debt	The borrowings as of 30th September 2023 of VTL is from PGInvIT at an interest rate of 14.5% p.a.
Capital Expenditure	The Management has provided us estimated capital expenditure to be incurred over the forecast period for VTL. We have relied on the projections provided by the Management.
Contingent Liabilities	The Management represented that, as per the Share Purchase Agreement executed between POWERGRID, IDBI Trusteeship Services Limited (in its capacity as Trustee to PGInvIT), PUTL (in its capacity as Investment Manager to PGInvIT) and Specified SPVs, POWERGRID has undertaken to indemnify, defend and hold harmless the Trust and the Investment Manager from and against losses which relate to or arise from inter-alia any pending or threatened claims against the Specified SPVs from the period prior to and including the First Closing Date i.e. 13th May 2021. And no major contingent liabilities have arisen for the period after 13th May 2021. Since no contingent liability has to be borne by VTL, there is no impact of contingent liability on the valuation.

Sensitivity Analysis

Sensitivity analysis is an analysis technique that works on the basis of what-if analysis like how independent variables can affect the dependent variable. As discussed above, DCF valuation involves use of critical inputs to determine equity value, these critical inputs are independent variables and resultant equity value is dependent variable.

The table below is a what-if analysis table, wherein the impact on equity value and enterprise value has been produced considering critical input being discount rates vary by 50 basis points in either direction.

Sensitivity		Equity Value	Enterprise Value
		(in ₹ millions)	
Discount rates	7.50%	14,021.26	21,661.42
	8.00%	12,847.09	20,487.25
	8.50%	11,798.81	19,438.97
	8.85%	11,133.70	18,773.86
	9.00%	10,856.70	18,496.86
	9.50%	10,005.07	17,645.23
	10.00%	9,231.26	16,871.42

10.1.3 Additional Disclosures

The Schedule V of the SEBI InvIT Regulations prescribes the minimum set of mandatory disclosures to be made in the full valuation report. However, in reference to half yearly valuation as on 30th September, 2023 any key changes occurred since the last full valuation or annual valuation need to be disclosed and hence only the key material changes are incorporated in this section.

Below is the additional information as required by the regulations

Parameter	Details
List of one-time sanctions/approvals which are obtained or pending:	The list is enclosed in Annexure – 1 to the report.
List of up to date/ overdue periodic clearances:	We have included the details in Annexure – 1 to the report.
Statement of assets included:	The details of assets of VTL as of September 30th, 2023 are provided in Annexure – 6.

Parameter	Details
Estimates of already carried out as well as proposed major repairs and improvements along with estimated time of completion:	We understand from the Management that no major repairs and improvements of the assets have been performed till date. Also, VTL does not plan to perform any major repairs and improvements during the life of the project except CAPEX requirement captured above in the analysis. However, VTL incurs regular annual maintenance charges of Transmission Lines. The projected operation and maintenance charges for the life the project along with the projected inflation rate is as follows: Expenses | O&M Expenses FY 2024 | 38.99 FY 2025 | 40.36 FY 2026 | 41.78 Annual inflation rate FY24 to FY51 | 3.51% *Source: Management input* *Expenses in ₹ millions*
Revenue pendencies including local authority taxes associated with InvIT asset and compounding charges if any.	The Management has informed that there are no dues including local authority taxes pending to be payable to the Government authorities except as disclosed in the audited financial statements.
On-going material litigations including tax disputes in relation to the assets, if any;	The list of on-going material litigations including tax disputes in relation to VTL are provided in Annexure – 11.
Vulnerability to natural or induced hazards that may not have been covered in town planning building control	Management has confirmed that there are no such natural or induced hazards which have not been considered in town planning/ building control.
Latest Pictures of the project along with date of physical inspection	Please refer Annexure – 16.
Valuation of the project in the previous 3 years	Equity Value for VTL (100%) as on – • March 31st, 2023: ₹11,091.91 million (Report dated May 17th, 2023 by Inmacs Valuers Private Limited) • September 30th, 2022: ₹11,519.02 million (Report dated October 28th, 2022 by Inmacs Valuers Private Limited) • March 31st 2022: ₹14,453.2 million (Report dated May 17th, 2022 by RBSA Valuation Advisors LLP) • September 30th, 2021: ₹14,934.4 million (Report dated October 28th, 2021 by RBSA Valuation Advisors LLP)
Purchase price of the project by the InvIT	INR 11,561.36 million (acquired 74% during IPO) INR 330.78 million (Acquired 26% on 31.03.2022). Acquisitions were made from Power Grid Corporation of India Limited (Sponsor) and the transactions were related party transaction.

10.2 POWERGRID Kala Amb Transmission Limited

10.2.1 About the Company

Company	POWERGRID Kala Amb Transmission Limited
CIN	U40106DL2013GOI256048
Erstwhile name	NRSS XXXI (A) Transmission Limited
Incorporation Date	July 29,2013
Gross Block as on September 30, 2023	₹ 3,368.70 Million
TSA date	January 02,2014
Scheduled COD	July 12,2017
Project COD	July 12,2017
Expiry date	35 years from the date of COD
PGCIL shareholding	26%
PGInvIT shareholding	74%

POWERGRID Kala Amb Transmission Limited (PKATL) was incorporated on 29th July 2013. NRSS XXXI (A) Transmission Limited (erstwhile name of PKATL) entered into a transmission service agreement dated 2nd January 2014 with its LTTCs (the "PKATL TSA") for transmission of electricity for transmission system for Northern Region System Strengthening Scheme NRSSXXXI (Part A) on a BOOM basis.

The project was awarded on 26th February 2014, through the tariff-based competitive bidding ('TBCB') mechanism, for a 35-year period from the Scheduled COD, i.e., 12th July 2017. PKATL was granted transmission license by the CERC on 4th September 2014.

Subsequently, PKATL entered into a TSA dated 18th October 2016 with the CTU, inter-state transmission service customers, inter-state transmission service licensees and non-inter-state transmission service licensees whose assets have been certified as being used for inter-state transmission by the RPCs, and a revenue sharing agreement dated 18th October 2016 with the CTU. In addition, PKATL is in the process of installing a 1x125 MVAr, 420 kV bus reactor at Kala Amb, as part of the NRSS-XL scheme, through the regulated tariff mechanism ('RTM') vide its order dated March 22nd, 2022, CERC has a granted a separate transmission licence for the said RTM project.

PKATL operates one transmission line of 2.47 ckm comprising LILO of Karcham Wangtoo – Abdullapur transmission line at Kala Amb substation (on M/C towers). In addition, the project includes one 400/220 kV substation of an aggregate capacity of 630 MVA in Kala Amb (Himachal Pradesh), and 40% series compensation on 400 kV D/C line from Karcham Wangtoo (Himachal Pradesh) to Kala Amb (Himachal Pradesh).

As on September 30th 2023, the gross block of property plant and equipment including intangibles stood at ₹3,368.70 million.

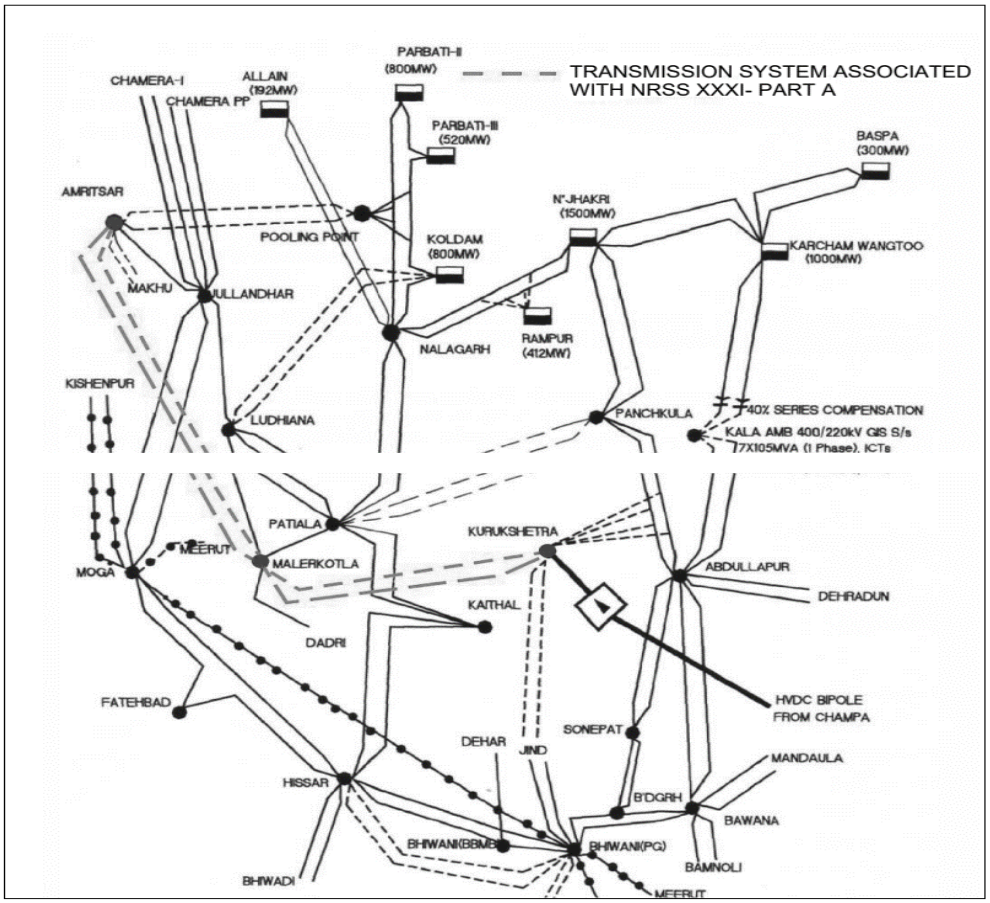

All the elements have been successfully charged and Date of Commercial Operations (DOCO) declared as per details below:

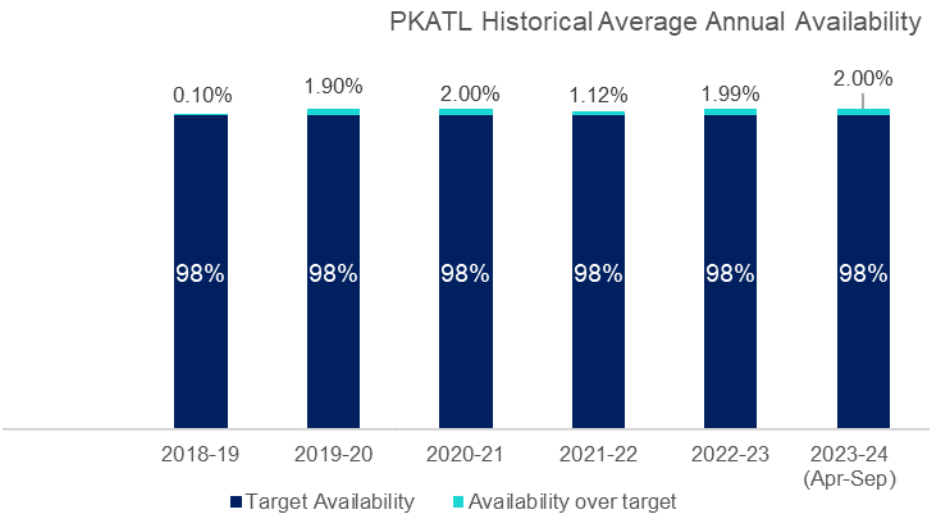

Transmission Line/ Substations	Location	Line length/ Capacity	Specifications	COD	Contribution to total transmission charges
LILO of both circuits of Karcham Wangtoo – Abdullapur transmission line at Kala Amb substation (on M/C towers)	Himachal Pradesh	2.47 ckm	400 kV D/C	12-Jul-17	84.50%
400/220 kV GIS substation at Kala Amb	Himachal Pradesh	630 MVA	400 kV / 220 kV GIS sub-station	12-Jul-17	
40% Series compensation on 400 kV Karcham Wangtoo – Kala Amb (Quad) D/C line at Kala Amb ends	Himachal Pradesh	-	40% series compensation	12-Jul-17	15.50%

Source: Management inputs

GRID Map of "Northern System Strengthening Scheme, NRSS- XXXI (Part A)" is as follows:

Historical Average Annual Availability of PKATL

Source: Management Input

Note: Average availability for FY 2023-24 (Apr-Sep) is on provisional basis

We have been provided with the financial projections of the PKATL for balance tenor of the TSA i.e. uptill July 11th, 2052, therefore we have referred the same for our analysis. Estimation of the net cash flows of the company to be in explicit period based on these financial projections.

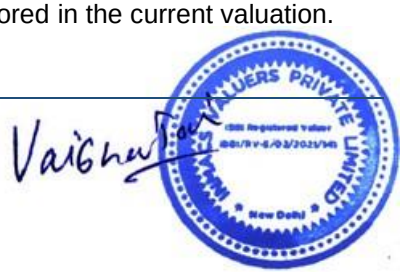

The projections of PKATL are based on the following critical inputs

Inputs	Details
Transmission Revenue	Transmission revenue of PKATL is provided in the TSA for the life of the project. It comprises of only non escalable transmission revenue as follows: a. Non-Escalable Transmission Revenue – It has been considered based on long term Transmission Service Agreement of PKATL . We have corroborated the non-escalable transmission revenue provided by the Management in the financial projections with the TSA of PKATL.
Incentive	As per the TSA, if the availability in a contract year exceeds the target availability of 98%, PKATL shall be entitled to an annual incentive as follows: Incentive = 0.02 X Annual Transmission Charges X (Actual Annual Availability – Target Availability) No incentive shall be payable above the availability of 99.75%. Management expects the annual availability for PKATL at or above 99.75% during the forecast period.
Penalty	If the availability in any contract year falls below 95%, PKATL shall be penalised as per the TSA. As represented to us by the Management, the availability in any contract year shall not fall below 95% during the forecast period and thus the penalty has not been considered in the financial projections.

Inputs	Details
Operations & Maintenance ("O&M") Expenses	O&M expenses for PKATL have been estimated by the Management as INR 49.20 Mn in FY2024. During the forecast period, these expenses have been escalated at the rate of 3.51% per annum as per O&M Agreement and Management estimates. We have relied on the projections provided by the Management.
Project Management ("PM") Expenses	Project Management expenses for PKATL have been estimated by the Management as INR 7.38 Mn in FY2024. During the forecast period, these expenses have been escalated at the rate of 3.51% per annum as per Project Implementation and Management Agreement. We have relied on the projections provided by the Management.
License fees	Annual License fee has been estimated by the Management for the forecast period at 0.11% of Annual Transmission Charges as provided under the CERC regulations.
Power Charges	Power charges for PKATL have been estimated by the Management at INR 1.12 Mn in FY2024. During the forecast period, these expenses have been escalated at the rate of 3.51% per annum.
Security Expenses	Security expenses for PKATL have been estimated by the Management at INR 6.30 Mn in FY2024. During the forecast period, these expenses have been escalated at the rate of 6.50% per annum.
Insurance Expenses	Insurance expenses for PKATL have been estimated by the Management (based on the invoice obtained from insurer) as INR 6.39 Mn in FY2024. Insurance expenses are expected to be constant throughout the life of the project.
Key Managerial Personnel Expenses	Key Managerial Personnel Expenses for PKATL have been estimated by the Management as INR 3.00 Mn in FY2024. During the forecast period, these expenses have been escalated at the rate of 6.50% per annum.
System and Market Operation Charges	System and Market Operation Charges for PKATL have been estimated by the Management as INR 0.01 Mn in FY2024. During the forecast period, these expenses have been escalated at the rate of 6.50% per annum.
Audit Expenses	Audit Expenses for PKATL have been estimated by the Management as INR 0.28 Mn in FY2024. During the forecast period, these expenses have been escalated at the rate of 10% per annum.
Other Administrative Expenses and Other Expenses	Other Administrative Expenses and Other Expenses for PKATL have been estimated by the Management as INR 0.78 Mn in FY2024. During the forecast period, these expenses have been escalated at the rate of 10% per annum.
Breakdown Contingencies	The Management has estimated that an amount of INR 0.50 Mn per annum shall be spent with respect to breakdown contingencies for PKATL during the forecast period.
CSR Expense	As per the provisions of Section 135 of the Companies Act 2013, a CSR Expense of 2% of the average profits for the past 3 years for PKATL has been considered.

Inputs	Details
Depreciation	Depreciation is being calculated using Straight Line Method over the life of the project considering a salvage value of 5% as per the Companies Act, 2013. For calculating depreciation as per Income Tax Act for the projected period, depreciation rate as specified in the Income Tax Act and WDV as per Income Tax Return filed by PKATL have been considered. PKATL is expected to incur certain maintenance capital expenditure during the forecast period. The effect of the same has been considered while computing both book and income tax depreciation.
Tax Incentive	PKATL shall pay taxes under the new regime at the rate of 25.17% throughout the forecast period. The effective tax rate throughout the forecast period shall be 25.17%
Working Capital	The Management have envisaged the working capital requirement of PKATL for the forecast period. The major operating working capital assumptions are as follows: a. Trade Receivables days – 45 days b. Unbilled Revenue days – 31 days
Debt	The borrowings as of 30th September, 2023 of PKATL is from PGInvIT at an interest rate of 14.5% p.a.
Capital Expenditure	The Management has provided us estimated capital expenditure to be incurred over the forecast period for PKATL. We have relied on the projections provided by the Management.
Contingent Liabilities	The Management represented that, as per the Share Purchase Agreement executed between POWERGRID, IDBI Trusteeship Services Limited (in its capacity as Trustee to PGInvIT), PUTL (in its capacity as Investment Manager to PGInvIT) and Specified SPVs, POWERGRID has undertaken to indemnify, defend and hold harmless the Trust and the Investment Manager from and against losses which relate to or arise from inter-alia any pending or threatened claims against the Specified SPVs from the period prior to and including the First Closing Date i.e. 13th May 2021 and no major contingent liabilities have arisen for the period after 13th May 2021. Since no contingent liability has to be borne by PKATL, there is no impact of contingent liability on the valuation.
New Transmission Licence	As per CERC order dated 22nd March 2022, PKATL has been granted a separate transmission licence for implementation of 125 MVAR, 420 kV Bus Reactor at Kala Amb on the Regulated Tariff Mechanism (RTM) route. The transmission licence will remain in force for a period of 25 years from the date of issue. Since the project is not commissioned as on the date of valuation, no financial impact has been factored in the current valuation.

Sensitivity Analysis

Sensitivity analysis is an analysis technique that works on the basis of what-if analysis like how independent variables can affect the dependent variable. As discussed above, DCF valuation involves use of critical inputs to determine equity value, these critical inputs are independent variables and resultant equity value is dependent variable.

The table below is a what-if analysis table, wherein the impact on equity value and enterprise value has been produced considering critical input being discount rates vary by 50 basis points in either direction.

Sensitivity		Equity Value	Enterprise Value
		(in ₹ millions)	
Discount rates	7.50%	2,575.21	4,375.78
	8.00%	2,380.10	4,180.67
	8.50%	2,203.25	4,003.82
	8.85%	2,089.69	3,890.26
	9.00%	2,042.09	3,842.66
	9.50%	1,894.55	3,695.12
	10.00%	1,758.93	3,559.50

10.2.3 Additional Disclosures

The Schedule V of the SEBI InvIT Regulations prescribes the minimum set of mandatory disclosures to be made in the full valuation report. However, in reference to half yearly valuation as on 30th September, 2023 any key changes occurred since the last full valuation or annual valuation need to be disclosed and hence only the key material changes are incorporated in this section.

Below is the additional information as required by the regulations

Parameter	Details
List of one-time sanctions/approvals which are obtained or pending:	The list is enclosed in Annexure – 2 to the report.
List of up to date/ overdue periodic clearances:	We have included the details in Annexure – 2 to the report.
Statement of assets included:	The details of assets of PKATL as of September 30th, 2023 are provided in Annexure – 7.

<table>
<tr><th>Parameter</th><th>Details</th></tr>
<tr><td>Estimates of already carried out as well as proposed major repairs and improvements along with estimated time of completion:</td><td>We understand from the Management that no major repairs and improvements of the assets have been performed till date. Also, PKATL does not plan to perform any major repairs and improvements during the life of the project except CAPEX requirement captured above in the analysis.
However, PKATL incurs regular annual maintenance charges of Transmission Lines. The projected operation and maintenance charges for the life the project along with the projected inflation rate is as follows:
<table><tr><th>Expenses</th><th>O&M Expenses</th></tr><tr><td>FY 2024</td><td>49.20</td></tr><tr><td>FY 2025</td><td>50.93</td></tr><tr><td>FY 2026</td><td>52.72</td></tr><tr><td>Annual inflation rate FY24 to FY51</td><td>3.51%</td></tr></table>Source: Management input
Expenses in ₹ millions</td></tr>
<tr><td>Revenue pendencies including local authority taxes associated with InvIT asset and compounding charges if any.</td><td>The Management has informed that there are no dues including local authority taxes pending to be payable to the Government authorities except as disclosed in the audited financial statements.</td></tr>
<tr><td>On-going material litigations including tax disputes in relation to the assets, if any;</td><td>The list of on-going material litigations including tax disputes in relation to PKATL are provided in Annexure – 12.</td></tr>
<tr><td>Vulnerability to natural or induced hazards that may not have been covered in town planning building control.</td><td>Management has confirmed that there are no such natural or induced hazards which have not been considered in town planning/ building control.</td></tr>
<tr><td>Latest Pictures of the project along with date of physical inspection</td><td>Please refer Annexure – 17.</td></tr>
<tr><td>Valuation of the project in the previous 3 years</td><td>Equity Value for PKATL (100%) as on –
March 31st, 2023: ₹2,045.02 million (Report dated May 17th, 2023 by Inmacs Valuers Private Limited)
September 30th, 2022: ₹2,054.60 million (Report dated October 28th, 2022 by Inmacs Valuers Private Limited)
March 31st,2022: ₹2,682.7 million (Report dated May 17th, 2022 by RBSA Valuation Advisors LLP)
September 30th, 2021: ₹2,617.5 million (Report dated October 28th, 2021 by RBSA Valuation Advisors LLP)</td></tr>
<tr><td>Purchase price of the project by the InvIT</td><td>INR 2,022.92 million (Acquired during IPO)

10.3 POWERGRID Parli Transmission Limited

10.3.1 About the company

Company	POWERGRID Parli Transmission Limited
CIN	U40109DL2014GOI269652
Incorporation Date	July 30,2014
Gross Block as on September 30, 2023	₹ 19,283.76 Million
TSA date	February 09,2015
Scheduled COD	January 31,2018
Project COD	June 04, 2018
Expiry date	35 years from the date of COD
PGCIL shareholding	26%
PGInvIT shareholding	74%

POWERGRID Parli Transmission Limited (PPTL) was incorporated on 30th July 2014. Gadarwara (B) Transmission Limited (erstwhile name of PPTL) entered into a transmission service agreement dated 9th February 2015 with its LTTCs (the "PPTL TSA") for the transmission system associated with Gadarwara STPS (2x800 MW) of NTPC (Part-B) on a BOOM basis.

The project was awarded on 11th March 2015, through the TBCB mechanism, for a 35 years' period from the Scheduled COD (as extended pursuant to a supplementary transmission services agreement dated 18th June 2019), i.e., 4th June 2018. PPTL was granted transmission license by CERC on 10th July 2015.

Subsequently, PPTL entered into a TSA dated 5th July 2016 with the CTU, inter-state transmission service customers, inter-state transmission service licensees and non-inter-state transmission service licensees whose assets have been certified as being used for inter-state transmission by the RPCs, and a revenue sharing agreement dated 5th July 2016 with the CTU. PPTL operates three transmission lines of 966.12 ckm comprising one 765 kV double circuit line of 693.70 ckm from Warora (Maharashtra) to Parli (Maharashtra), one 765 kV double circuit line of 235.92 ckm from Parli (Maharashtra) to Solapur (Maharashtra), and one 400 kV double circuit line of 36.50 ckm from Parli (New) (Maharashtra) to Parli (PG) (Maharashtra). In addition, the project includes one 765/400 kV substation of an aggregate capacity of 3,000 MVA in Parli (Maharashtra).

As of 30th September 2023, the Gross Block of Property, Plant and Equipment (including Intangibles) was INR 19,283.76 Mn.

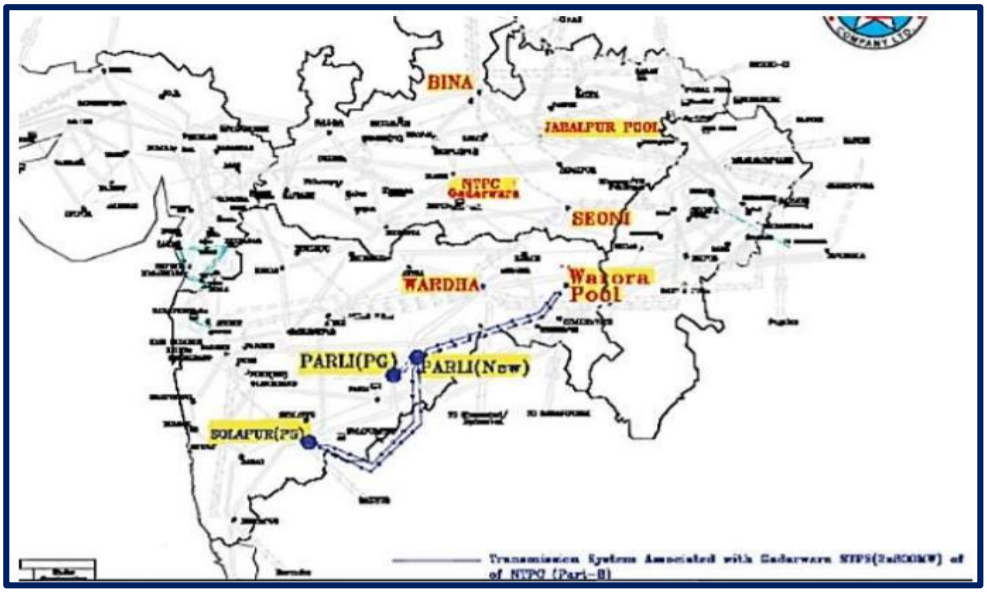

All the elements have been successfully charged and Date of Commercial Operation (DOCO) declared as per details below:

Transmission Line/ Substations	Location	Line length/ Capacity	Specifications	COD	Contribution to total transmission charges
Parli (New) – Solapur	Maharashtra	235.92 ckm	765 kV D/C	27-Apr-18	43.00%
Parli (New) – Parli (PG)	Maharashtra	36.50 ckm	400 kV D/C	27-Apr-18	
Establishment of 2x1500 MVA, Parli (New) S/S	Maharashtra	3000 MVA	765/400 Kv substation	27-Apr-18	
Warora (Pooling Station) – Parli (New)	Maharashtra	693.70 ckm	765 kV D/C	04-Jun-18	57.00%

GRID Map of "Transmission System Associated with Gadarwara of NTCP Part-B

Historical Average Annual Availability of PPTL

Source: Management Input

Note: Average availability for FY 2023-24 (Apr-Sep) is on provisional basis

We have been provided with the financial projections of the PPTL for balance tenor of the TSA i.e. uptill June 03rd, 2053, therefore we have referred the same for our analysis. Estimation of the net cash flows of the company to be in explicit period based on these financial projections.

The projections of PPTL are based on the following critical inputs:

Inputs	Details
Transmission Revenue	Transmission revenue of PPTL is provided in the TSA for the life of the project. It comprises non-escalable transmission revenue and escalable transmission revenue as follows:: a. Non-Escalable Transmission Revenue – It has been considered based on long term Transmission Service Agreement of PPTL . We have corroborated the non-escalable transmission revenue provided by the Management in the financial projections with the TSA of PPTL. b. Incremental Revenue – In case of PPTL, POWERGRID filed a petition with regard to an increased project cost due to the Change in Law claiming incremental transmission charges as per the TSA and relevant CERC regulations. In this regard, CERC in its order dated 29th January 2021 awarded a total claim for increase in transmission charges owing to the change in law. As per the CERC order, incremental revenue is computed basis Article 12.2 of the TSA agreement, which states, for every cumulative increase/decrease of each INR 73.9 Mn in the project cost up to the scheduled COD of the Project, the increase/decrease in Non-Escalable Transmission Charges shall be an amount equal to Zero Point Three One Three percent (0.313%) of the Non-Escalable Transmission Charges. As per the Share Purchase Agreement executed between POWERGRID, IDBI Trusteeship Services Limited (in its capacity as Trustee to PGInvIT), PUTL (in its capacity as Investment Manager to PGInvIT) and PPTL for the transfer of shares to the Trust, the incremental transmission tariff expected to be received by PPTL in future owing to the change in law was supposed to be passed on to the Sponsor (POWERGRID). However, PPTL in March 2022 has purchased the Right of Additional Revenue from POWERGRID at INR 810.1 Mn which was a related party transaction. In compliance with the CERC order dated 29th January 2021 the total claim for billing owing to the compensation awarded by CERC is hereunder:

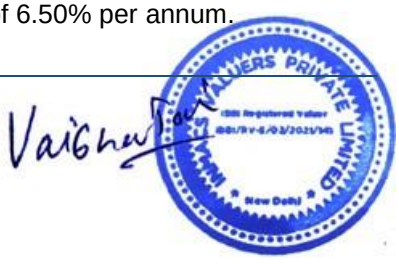

Description	Claim as per petition of PPTL (INR Mn)	Claim allowed as per CERC order (INR Mn)
Increase in acquisition Price by Bid Process Coordinator (BPC)	5.5	3.9
Increase in cost owing to introduction of GST	232.4	220.2
Land Compensation	477.5	433.9
Total	715.4	658
Change in Annual transmission charges as per Article 12.2.1 of the TSA		2.79% (658.0*0.313%/73.9)

Source: Management Inputs

Based on the CERC order and Article 12.2.1 of TSA, an increase in Annual transmission charges is 2.79%

The Charge computed above is applied on the projected Non-Escalable Transmission charges to arrive at the incremental revenue for the respective forecast financial year.

Inputs	Details
Incentive	As per the TSA, if the availability in a contract year exceeds the target availability of 98%, PPTL shall be entitled to an annual incentive as follows: Incentive = 0.02 X Annual Transmission Charges X (Actual Annual Availability – Target Availability) No incentive shall be payable above the availability of 99.75%. Management expects the annual availability for PPTL at or above 99.75% during the forecast period.
Penalty	If the availability in any contract year falls below 95%, PPTL shall be penalised as per the TSA. As represented to us by the Management, the availability in any contract year shall not fall below 95% during the forecast period and thus the penalty has not been considered in the financial projections.
Operations & Maintenance ("O&M") Expenses	O&M expenses for PPTL have been estimated by the Management as INR 95.26 Mn in FY2024. During the forecast period, these expenses have been escalated at the rate of 3.51% per annum as per O&M Agreement and Management estimates. We have relied on the projections provided by the Management.
Project Management ("PM") Expenses	Project Management expenses for PPTL have been estimated by the Management as INR 14.29 Mn in FY2024. During the forecast period, these expenses have been escalated at the rate of 3.51% per annum as per Project Implementation and Management Agreement. We have relied on the projections provided by the Management.
License fees	Annual License fee has been estimated by the Management for the forecast period at 0.11% of Annual Transmission Charges as provided under the CERC regulations.
Power charges	Power charges for PPTL have been estimated by the Management at INR 5.94 Mn in FY2024. During the forecast period, these expenses have been escalated at the rate of 3.51% per annum.
Security charges	Security expenses for PPTL have been estimated by the Management at INR 5.88 Mn in FY2024. During the forecast period, these expenses have been escalated at the rate of 6.50% per annum.
Insurance Expenses	Insurance expenses for PPTL have been estimated by the Management (based on the invoice obtained from insurer) as INR 69.76 Mn in FY2024. These expenses shall be constant throughout the life of the project.
Key Managerial Personnel Expenses	Key Managerial Personnel Expenses for PPTL have been estimated by the Management as INR 2.70 Mn in FY2024. During the forecast period, these expenses have been escalated at the rate of 6.50% per annum.

Inputs	Details
System and Market Operation Charges	System and Market Operation Charges for PPTL have been estimated by the Management as INR 4.13 Mn in FY2024. During the forecast period, these expenses have been escalated at the rate of 6.50% per annum.
Audit Expenses	Audit Expenses for PPTL have been estimated by the Management as INR 0.28 Mn in FY2024. During the forecast period, these expenses have been escalated at the rate of 10% per annum.
Other Administrative Expenses and Other Expenses	Other Administrative Expenses and Other Expenses for PPTL have been estimated by the Management as INR 0.79 Mn in FY2024. During the forecast period, these expenses have been escalated at the rate of 10% per annum.
Breakdown Contingencies	The Management has estimated that an amount of INR 0.50 Mn per annum shall be spent with respect to breakdown contingencies for PPTL during the forecast period.
CSR Expense	As per the provisions of Section 135 of the Companies Act 2013, a CSR Expense of 2% of the average profits for the past 3 years for PPTL has been considered.
Depreciation	Depreciation is being calculated using Straight Line Method over the life of the project considering a salvage value of 5% as per the Companies Act, 2013. For calculating depreciation as per Income Tax Act for the projected period, depreciation rate as specified in the Income Tax Act and WDV as per Income Tax Return filed by PPTL have been considered. PPTL is expected to incur certain maintenance capital expenditure during the forecast period. The effect of the same has been considered while computing both book and income tax depreciation. In March 2022, PPTL has purchased the Right of additional revenue from POWERGRID at INR 810.1 Mn as discussed above. The purchase consideration has been recognised as an Intangible asset (Right of Additional Revenue) in the financial statements of PPTL. We understand from the Management that the amortization of the above intangible asset (Right of additional revenue) will be tax deductible under the Income Tax Act, 1961 and, accordingly, we have considered the tax amortisation of the above intangible asset in the valuation.
Tax Rate	PPTL shall pay taxes under the new regime at the rate of 25.17% throughout the forecast period. The effective tax rate throughout the forecast period shall be 25.17%
Working Capital	The Management have envisaged the working capital requirement of PPTL for the forecast period. The major operating working capital assumptions are as follows: a. Trade Receivables days – 45 days b. Unbilled Revenue days – 31 days

Inputs	Details
Debt	The borrowings as on 30th September, 2023 of PPTL is from PGInvIT at an interest rate of 14.5% p.a.
Capital Expenditure	The Management has provided us estimated capital expenditure to be incurred over the forecast period for PPTL. We have relied on the projections provided by the Management.
Contingent Liabilities	The Management represented that, as per the Share Purchase Agreement executed between POWERGRID, IDBI Trusteeship Services Limited (in its capacity as Trustee to PGInvIT), PUTL (in its capacity as Investment Manager to PGInvIT) and Specified SPVs, POWERGRID has undertaken to indemnify, defend and hold harmless the Trust and the Investment Manager from and against losses which relate to or arise from inter-alia any pending or threatened claims against the Specified SPVs from the period prior to and including the First Closing Date i.e. 13th May 2021 and no major contingent liabilities have arisen for the period after 13th May 2021. Since no contingent liability has to be borne by PPTL, there is no impact of contingent liability on the valuation.

10.3.2 DCF Valuation Analysis

POWERGRID Parli Transmission Limited

Sensitivity Analysis

Sensitivity analysis is an analysis technique that works on the basis of what-if analysis like how independent variables can affect the dependent variable. As discussed above, DCF valuation involves use of critical inputs to determine equity value, these critical inputs are independent variables and resultant equity value is dependent variable.

The table below is a what-if analysis table, wherein the impact on equity value and enterprise value has been produced considering critical input being discount rates vary by 50 basis points in either direction.

Sensitivity		Equity Value	Enterprise Value
		(in ₹ millions)	
Discount rates	7.50%	12,401.02	24,650.96
	8.00%	11,264.80	23,514.74
	8.50%	10,242.12	22,492.06
	8.85%	9,589.06	21,839.00
	9.00%	9,316.10	21,566.04
	9.50%	8,473.16	20,723.10
	10.00%	7,702.26	19,952.20

10.3.3 Additional Disclosures

The Schedule V of the SEBI InvIT Regulations prescribes the minimum set of mandatory disclosures to be made in the full valuation report. However, in reference to half yearly valuation as on 30th September, 2023 any key changes occurred since the last full valuation or annual valuation need to be disclosed and hence only the key material changes are incorporated in this section.

Below is the additional information as required by the regulations

<table>
<tr><th>Parameter</th><th>Details</th></tr>
<tr><td>List of one-time sanctions/approvals which are obtained or pending:</td><td>The list is enclosed in Annexure – 3 to the report.</td></tr>
<tr><td>List of up to date/ overdue periodic clearances:</td><td>We have included the details in Annexure – 3 to the report.</td></tr>
<tr><td>Statement of assets included:</td><td>The details of assets of PPTL as of September 30th, 2023 are provided in Annexure – 8.</td></tr>
<tr><td>Estimates of already carried out as well as proposed major repairs and improvements along with estimated time of completion:</td><td>We understand from the Management that no major repairs and improvements of the assets have been performed till date. Also, PPTL does not plan to perform any major repairs and improvements during the life of the project except CAPEX requirement captured above in the analysis.
However, PPTL incurs regular annual maintenance charges of Transmission Lines. The projected operation and maintenance charges for the life the project along with the projected inflation rate is as follows:
<table>
<tr><th>Expenses</th><th>O&M Expenses</th></tr>

<tr><td>Vulnerability to natural or induced hazards that may not have been covered in town planning building control.</td><td>Management has confirmed that there are no such natural or induced hazards which have not been considered in town planning/ building control.</td></tr>
<tr><td>Latest Pictures of the project along with date of physical inspection</td><td>Please refer Annexure – 18.</td></tr>
</table>

Valuation of the project in the previous 3 years	Equity Value for PPTL (100%) as on - • March 31st, 2023: ₹9,238.46 million (Report dated May 17th, 2023 by Inmacs Valuers Private Limited) • September 30th, 2022: ₹9,372.53 million (Report dated October 28th, 2022 by Inmacs Valuers Private Limited) • March 31st,2022: ₹ 12,715.1million (Report dated May 17th, 2022 by RBSA Valuation Advisors LLP) • September 30th, 2021: ₹12,944.80 million (Report dated October 28th, 2021 by RBSA Valuation Advisors LLP)
Purchase price of the project by the InvIT	INR 9,919.16 million (Acquired during IPO) Acquisition was made from Power Grid Corporation of India Limited (Sponsor) and the transaction was related party transaction.

10.4 POWERGRID Warora Transmission Limited

10.4.1 About the company

Company	POWERGRID Warora Transmission Limited
CIN	U40300DL2014GOI269918
Incorporation Date	August 05,2014
Gross Block as on September 30, 2023	₹ 23,483.19 Million
TSA date	February 09,2015
Scheduled COD	November 2017
Project COD	July 10,2018
Expiry date	35 years from the date of COD
PGCIL shareholding	26%
PGInvIT shareholding	74%

The project was awarded on 11th March 2015, through the TBCB mechanism, for a 35 years' period from the Scheduled COD (as extended pursuant to a supplementary transmission services agreement dated 11th September 2019), i.e., 10th July 2018. PWTL was granted transmission license by CERC on 5th August 2015.

Subsequently, PWTL entered into a TSA dated 27th October 2016 with the CTU, inter-state transmission service customers, inter-state transmission service licensees and non-inter-state transmission service licensees whose assets have been certified as being used for inter-state transmission by the RPCs, and a revenue sharing agreement dated 27th October 2016 with the CTU.

PWTL operates four transmission lines of 1,028.11 ckm comprising two 765 kV double circuit line of 204.47 ckm from Gadarwara (Madhya Pradesh) to Jabalpur (Madhya Pradesh), one 765 kV double circuit line of 627.35 ckm from Gadarwara (Madhya Pradesh) to Warora (Maharashtra), and one 400 kV double circuit line of 196.29 ckm from Wardha and Parli (Maharashtra) to Warora (Maharashtra). In addition, PWTL has established one 765/400 kV substation in Warora (Maharashtra).

As of 30th September 2023, the Gross Block of Property, Plant and Equipment (including Intangibles) was INR 23,483.19 Mn.

All the elements have been successfully charged and Date of Commercial Operation (DOCO) declared as per details below:

Transmission Line/ Substations	Location	Line length/ Capacity	Specifications	COD	Contribution to total transmission charges
As per the interim arrangement, LILO of existing Seoni-Bina 765kV S/C line at Gadarwara STPS would be established. At a later date, LILO portion would be delinked from Seoni- Bina 765kV S/C line to restore the Seoni-Bina765 S/C direct line, and the LILO portion would be extended to the Jabalpur 765/400 kV Pooling Station to form the proposed Gadarwara 765/400kV Pooling Station to form the proposed Gadarwara- Jabalpur Pool 765 kV D/C line	Madhya Pradesh	30.55 ckm	765 kV D/C	30-Nov-16	21.00%
Gadarwara STPS-Jabalpur Pool	Madhya Pradesh	173.92 ckm	765 kV D/C	31-May-17	
Gadarwara STPS-New Pooling Station within the jurisdiction/ boundary of Warora	Madhya Pradesh and Maharashtra	627.35 ckm	765 kV D/C	10-Jul-18	79.00%
LILO of both circuits of Wardha - Parli (PG) 400 kV D/C line at Warora* Pooling Station (Quad)	Maharashtra	196.29 ckm	400 kV D/C	16-May-18	
Establishment of 2X1500 MVA 765/400 kV (New Pooling Station within the jurisdiction/boundary Warora)	Maharashtra	3,000 MVA	765/400 kV	10-Jul-18

GRID Map of “Transmission System Associated with Gadarwara of NTCP Part-A

Historical Average Annual Availability of PWTL:

Source: Management Input

Note: Average availability for FY 2023-24 (Apr-Sep) is on provisional basis

We have been provided with the financial projections of the PWTL for balance tenor of the TSA i.e. uptill July 09th, 2053, therefore we have referred the same for our analysis. Estimation of the net cash flows of the company to be in explicit period based on these financial projections.

The projections of PWTL are based on the following critical inputs:

Inputs	Details
Transmission Revenue	Transmission revenue of PWTL is provided in the TSA for the life of the project. It comprises non-escalable transmission revenue and escalable transmission revenue as follows:: a. Non-Escalable Transmission Revenue – It has been considered as per long term Transmission Service Agreement of PWTL. We have corroborated the non-escalable transmission revenue provided by the Management in the financial projections with the TSA of PWTL. b. Incremental Revenue – In case of PWTL, POWERGRID filed a petition with regard to an increased project cost due to the Change in Law claiming incremental transmission charges as per the TSA and relevant CERC regulations.. In this regard, CERC in its order dated 25th January 2021 awarded a total claim for increase in transmission charges owing to the change in law. As per the CERC order, incremental revenue is computed basis Article 12.2 of the TSA agreement, which states, for every cumulative increase/decrease of each INR 79.0 Mn in the project cost up to the scheduled COD of the Project, the increase/decrease in Non-Escalable Transmission Charges shall be an amount equal to Zero Point Three One Three percent (0.313%) of the Non-Escalable Transmission Charges. As per the Share Purchase Agreement executed between POWERGRID, IDBI Trusteeship Services Limited (in its capacity as Trustee to PGInvIT), PUTL (in its capacity as Investment Manager to PGInvIT) and PWTL for the transfer of shares to the Trust, the incremental transmission tariff expected to be received by PWTL in future owing to the change in law was supposed to be passed on to the Sponsor (POWERGRID). However, PWTL in March 2022 has purchased the Right of Additional Revenue from POWERGRID at INR 1,118.4 Mn which was a related party transaction. In compliance with the CERC order dated 25th January 2021 the total claim for billing owing to the compensation awarded by CERC is hereunder:

Description	Claim as per petition of PWTL (INR Mn)	Claim allowed as per CERC order (INR Mn)
Increase in acquisition Price by Bid Process Coordinator (BPC)	5.8	4.0
Increase in cost owing to introduction of GST	201.7	189.7
Land Compensation	747.8	675.8
Total	955.3	869.5
Change in Annual transmission charges as per Article 12.2.1 of the TSA		3.45% (869.5*0.313%/79)

Source: Management Inputs

Based on the CERC order and Article 12.2.1 of TSA, an increase in Annual transmission charges is 3.45%

The Charge computed above is applied on the projected Non-Escalable Transmission charges to arrive at the incremental revenue for the respective forecast financial year

Incentive	As per the TSA, if the availability in a contract year exceeds the target availability of 98%, PWTL shall be entitled to an annual incentive as follows: Incentive = 0.02 X Annual Transmission Charges X (Actual Annual Availability – Target Availability) No incentive shall be payable above the availability of 99.75%. Management expects the annual availability for PWTL at or above 99.75% during the forecast period.
Penalty	If the availability in any contract year falls below 95%, PWTL shall be penalised as per the TSA. As represented to us by the Management, the availability in any contract year shall not fall below 95% during the forecast period and thus the penalty has not been considered in the financial projections.

Inputs	Details
Operations & Maintenance ("O&M") Expenses	O&M expenses for PWTL have been estimated by the Management at INR 95.26 Mn in FY2024. During the forecast period, these expenses have been escalated at the rate of 3.51% per annum as per O&M Agreement and Management estimates. We have relied on the projections provided by the Management.
Project Management ("PM") Expenses	Project Management expenses for PWTL have been estimated by the Management at INR 14.29 Mn in FY2024. During the forecast period, these expenses have been escalated at the rate of 3.51% per annum as per Project Implementation and Management Agreement. We have relied on the projections provided by the Management.
License fees	Annual License fee has been estimated by the Management for the forecast period at 0.11% of Annual Transmission Charges as provided under the CERC regulations.
Power charges	Power charges for PWTL have been estimated by the Management at INR 6.84 Mn in FY2024. During the forecast period, these expenses have been escalated at the rate of 3.51% per annum.
Security charges	Security expenses for PWTL have been estimated by the Management at INR 6.10 Mn in FY2024. During the forecast period, these expenses have been escalated at the rate of 6.50% per annum.
Insurance Expenses	Insurance expenses for PWTL have been estimated by the Management (based on the invoice obtained from insurer) at INR 80.96 Mn in FY2024. Insurance expenses are expected to remain constant throughout the life of the project.
Key Managerial Personnel Expenses	Key Managerial Personnel Expenses for PWTL have been estimated at INR 2.70 Mn in FY2024. During the forecast period, these expenses have been escalated at the rate of 6.50% per annum.
System and Market Operation Charges	System and Market Operation Charges for PWTL have been estimated by the Management at INR 4.39 Mn in FY2024. During the forecast period, these expenses have been escalated at the rate of 6.50% per annum.
Audit Expenses	Audit Expenses for PWTL have been estimated by the Management at INR 0.28 Mn in FY2024. During the forecast period, these expenses have been escalated at the rate of 10% per annum.
Other Administrative Expenses and Other Expenses	Other Administrative Expenses and Other Expenses for PWTL have been estimated by the Management at INR 0.78 Mn in FY2024. During the forecast period, these expenses have been escalated at the rate of 10% per annum.

Inputs	Details
Breakdown Contingencies	The Management has estimated that an amount of INR 0.50 Mn per annum shall be spent with respect to breakdown contingencies for PWTL during the forecast period.
CSR Expense	As per the provisions of Section 135 of the Companies Act 2013, a CSR Expense of 2% of the average profits for the past 3 years for PWTL has been considered.
Depreciation	Depreciation is being calculated using Straight Line Method over the life of the project considering a salvage value of 5% as per the Companies Act, 2013. For calculating depreciation as per Income Tax Act for the projected period, depreciation rate as specified in the Income Tax Act and WDV as per Income Tax Return filed by PWTL have been considered. PWTL is expected to incur certain maintenance capital expenditure during the forecast period. The effect of the same has been considered while computing both book and income tax depreciation. In March 2022, PWTL has purchased the Right of additional revenue from POWERGRID at INR 1,118.4 Mn as discussed above. The purchase consideration has been recognised as an Intangible asset (Right of Additional Revenue) in the balance sheet of PWTL. We understand from the Management that the amortization of the above intangible asset (Right of additional revenue) will be tax deductible under the Income Tax Act, 1961 and, accordingly, we have considered the tax amortisation of the above intangible asset in the valuation.
Tax Rate	PWTL shall pay taxes under the new regime at the rate of 25.17% throughout the forecast period. The effective tax rate throughout the forecast period shall be 25.17%
Working Capital	The Management have envisaged the working capital requirement of PWTL for the forecast period. The major operating working capital assumptions are as follows: a. Trade Receivables days – 45 days b. Unbilled Revenue days – 31 days
Debt	The borrowings as on 30th September, 2023 of PWTL is from PGInvIT at an interest rate of 14.5% p.a.
Capital Expenditure	The Management has provided us estimated capital expenditure to be incurred over the forecast period for PWTL. We have relied on the projections provided by the Management.
Contingent Liabilities	The Management represented that, as per the Share Purchase Agreement executed between POWERGRID, IDBI Trusteeship Services Limited (in its capacity as Trustee to PGInvIT), PUTL (in its capacity as Investment Manager to PGInvIT) and Specified SPVs, POWERGRID has undertaken to indemnify, defend and hold harmless the Trust and the Investment Manager from and against losses which relate to or arise from inter-alia any pending or threatened claims against the Specified SPVs from the period prior to and including the First Closing Date i.e. 13th May 2021 and no major contingent liabilities have arisen for the period after 13th May 2021. Since no contingent liability has to be borne by PWTL, there is no impact of contingent liability on the valuation.

Sensitivity Analysis

Sensitivity analysis is an analysis technique that works on the basis of what-if analysis like how independent variables can affect the dependent variable. As discussed above, DCF valuation involves use of critical inputs to determine equity value, these critical inputs are independent variables and resultant equity value is dependent variable.

The table below is a what-if analysis table, wherein the impact on equity value and enterprise value has been produced considering critical input being discount rates vary by 50 basis points in either direction.

Sensitivity		Equity Value	Enterprise Value
		(in ₹ millions)	
Discount rates	7.50%	12,175.76	27,108.78
	8.00%	10,933.50	25,866.52
	8.50%	9,814.33	24,747.35
	8.85%	9,099.16	24,032.18
	9.00%	8,800.13	23,733.15
	9.50%	7,876.29	22,809.31
	10.00%	7,030.90	21,963.92

10.4.3 Additional Disclosures

The Schedule V of the SEBI InvIT Regulations prescribes the minimum set of mandatory disclosures to be made in the full valuation report. However, in reference to half yearly valuation as on 30th September, 2023 any key changes occurred since the last full valuation or annual valuation need to be disclosed and hence only the key material changes are incorporated in this section.

Below is the additional information as required by the regulations

Parameter	Details
List of one-time sanctions/approvals which are obtained or pending	The list is enclosed in Annexure – 4 to the report.
List of up to date/ overdue periodic clearances	We have included the details in Annexure – 4 to the report.
Statement of assets included:	The details of assets of PWTL as of September 30th, 2023 are provided in Annexure – 9.

Parameter	Details
Estimates of already carried out as well as proposed major repairs and improvements along with estimated time of completion:	We understand from the Management that no major repairs and improvements of the assets have been performed till date. Also, PWTL does not plan to perform any major repairs and improvements during the life of the project except CAPEX requirement captured above in the analysis. However, PWTL incurs regular annual maintenance charges of Transmission Lines. The projected operation and maintenance charges for the life the project along with the projected inflation rate is as follows:

Expenses	O&M Expenses
FY 2024	95.26
FY 2025	98.61

Expenses in ₹ millions

Revenue pendencies including local authority taxes associated with InvIT asset and compounding charges if any.	The Management has informed that there are no dues including local authority taxes pending to be payable to the Government authorities except as disclosed in the audited financial statements.
On-going material litigations including tax disputes in relation to the assets, if any	The list of on-going material litigations including tax disputes in relation to PWTL are provided in Annexure – 14.
Vulnerability to natural or induced hazards that may not have been covered in town planning building control.	Management has confirmed that there are no such natural or induced hazards which have not been considered in town planning/ building control.
Latest Pictures of the project along with date of physical inspection	Please refer Annexure – 19.
Valuation of the project in the previous 3 years	Equity Value for PWTL (100%) as on - • March 31st, 2023: ₹ 8,511.47 million (Report dated May 17th, 2023 by Inmacs Valuers Private Limited) • September 30th, 2022: ₹ 8,893.22million (Report dated October 28th, 2022 by Inmacs Valuers Private Limited) • March 31st,2022: ₹ 13,173.2million (Report dated May 17th, 2022 by RBSA Valuation Advisors LLP) • September 30th, 2021: ₹ 13,537.1 million (Report dated October 28th, 2021 by RBSA Valuation Advisors LLP)
Purchase price of the project by the InvIT	INR 10,327.52 million (Acquired during IPO) Acquisition was made from Power Grid Corporation of India Limited (Sponsor) and the transaction was related party transaction.

10.5 POWERGRID Jabalpur Transmission Limited

10.5.1 About the company

Company	POWERGRID Jabalpur Transmission Limited
CIN	U40300DL2014GOI270433
Incorporation Date	August 14,2014
Gross Block as on September 30, 2023	₹ 16,407.70 Million
TSA date	November 19,2014
Scheduled COD	June 26,2018
Project COD	January 01,2019
Expiry date	35 years from the date of COD
PGCIL shareholding	26%
PGInvIT shareholding	74%

The project was awarded on 10th February 2015, through the TBCB mechanism, for a 35-year period from the Scheduled COD, i.e., 25th June 2018. As of the date, PJTL proposes to enter into a supplementary agreement to extend the Scheduled COD under the PJTL TSA to the date of the actual COD i.e., 1st January 2019. PJTL was granted transmission license by CERC on 15th June 2015.

Subsequently, PJTL entered into a TSA dated 22nd August 2016 with the CTU, inter-state transmission service customers, inter-state transmission service licensees and non-inter-state transmission service licensees whose assets have been certified as being used for inter-state transmission by the RPCs, and a revenue sharing agreement dated 22nd August 2016 with the CTU.

PJTL operates one transmission line of 745.01 ckm comprising 765 kV double circuit line of from Vindhyachal Pooling Station to Jabalpur Pooling Station.

As of 30th September 2023, the Gross Block of Property, Plant and Equipment (including Intangibles) was INR 16,407.70 Mn.

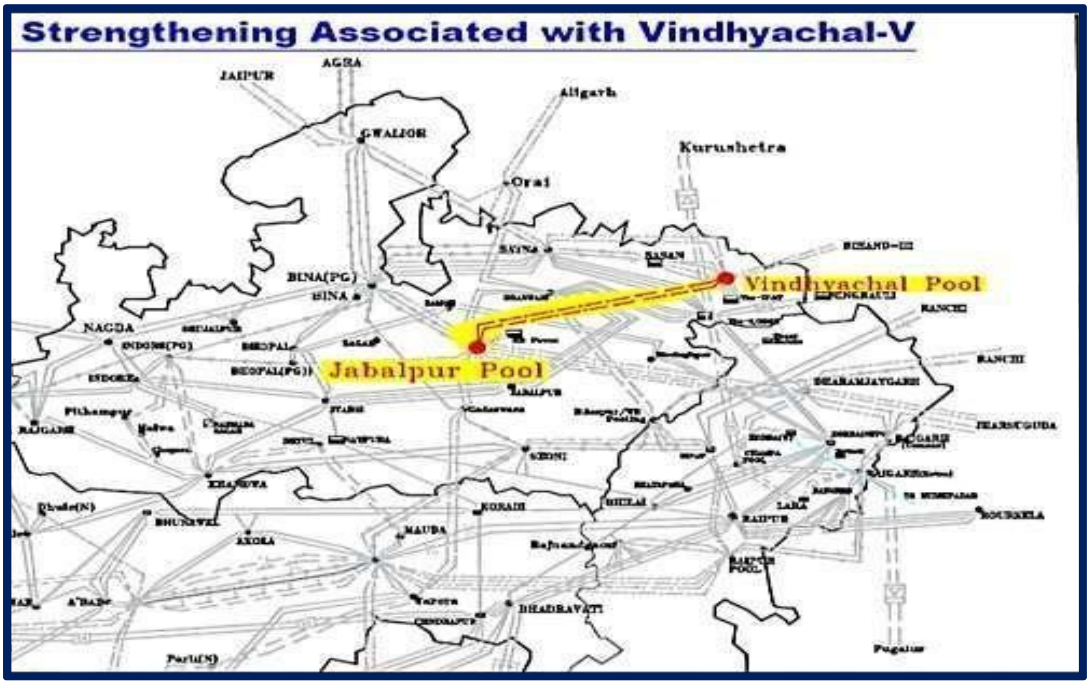

All the elements have been successfully charged and Date of Commercial Operation (DOCO) declared as per details below:

Transmission Line/ Substations	Location	Line length/ Capacity	Specifications	COD	Contribution to total transmission charges
Vindhyachal Pooling Station- Jabalpur Pooling Station 765 kV D/C line	Madhya Pradesh	745.01 ckm	745.01 ckm	01-Jan-19	100.00%

Historical Average Annual Availability of PJTL

Source: Management Input

Note: Average availability for FY 2023-24 (Apr-Sep) is on provisional basis

We have been provided with the financial projections of the PJTL for balance tenor of the TSA i.e. uptill December 31st, 2053, therefore we have referred the same for our analysis. Estimation of the net cash flows of the company to be in explicit period based on these financial projections.

The projections of PJTL are based on the following critical inputs:

Inputs	Details
Transmission Revenue	Transmission revenue of PJTL is provided in the TSA for the life of the project. It comprises non-escalable transmission revenue and escalable transmission revenue as follows:: a. Non-Escalable Transmission Revenue – It has been considered based on long term Transmission Service Agreement of PJTL. We have corroborated the non-escalable transmission revenue provided by the Management in the financial projections with the TSA of PJTL. b. Incremental Revenue – In case of PJTL, POWERGRID filed a petition with regard to an increased project cost due to the Change in Law claiming incremental transmission charges as per the TSA and relevant CERC regulations. In this regard, CERC in its order dated 28th October 2021, awarded a total claim for increase in transmission charges owing to the change in law. As per the CERC order, incremental revenue is computed basis Article 12.2 of the TSA agreement, which states, for every cumulative increase/decrease of each INR 37.6 Mn in the project cost up to the scheduled COD of the Project, the increase/decrease in Non-Escalable Transmission Charges shall be an amount equal to Zero Point Three One Three percent (0.313%) of the Non-Escalable Transmission Charges. As per the Share Purchase Agreement executed between POWERGRID, IDBI Trusteeship Services Limited (in its capacity as Trustee to PGInvIT), PUTL (in its capacity as Investment Manager to PGInvIT) and PJTL for the transfer of shares to the Trust, the incremental transmission tariff expected to be received by PJTL in future owing to the change in law was supposed to be passed on to the Sponsor (POWERGRID). However, PJTL in March 2022 has purchased the Right of Additional Revenue from POWERGRID at INR 1,113.0 Mn which was a related party transaction. In compliance with the CERC order dated 28th October 2021 and LTTC's reply (Maharasthra State Electricity Distribution Company limited), dated 21st January 2022, the total claim for billing owing to the compensation awarded by CERC is hereunder: *CERC order and as agreed by LTTC Maharasthra State Electricity Distribution Company Limited Based on CERC order and Article 12.2.1 of TSA an increase in Annual transmission charges is 5.23%. The Charge computed above is applied on the projecte Non-Escalable Transmission charges to arrive at the incremental revenue for the respective forecast financial year.

Description	Claim as per petition of PWTL (INR Mn)	Claim allowed as per CERC order (INR Mn)
Increase in acquisition Price by Bid Process Coordinator (BPC)	3.5	2.3
Increase in cost owing to introduction of GST	210.3	191.4
Land Compensation	552.6	434.1
Total	766.4	627.8
Change in Annual transmission charges as per Article 12.2.1 of the TSA		5.23% (627.8*0.313%/37.6)

Source: Management Inputs

Incentive	As per the TSA, if the availability in a contract year exceeds the target availability of 98%, PJTL shall be entitled to an annual incentive as follows: Incentive = 0.02 X Annual Transmission Charges X (Actual Annual Availability – Target Availability) No incentive shall be payable above the availability of 99.75%. Management expects the annual availability for PJTL at or above 99.75% during the forecast period.
Penalty	If the availability in any contract year falls below 95%, PJTL shall be penalised as per the TSA. As represented to us by the Management, the availability in any contract year shall not fall below 95% during the forecast period and thus the penalty has not been considered in the financial projections.
Operations & Maintenance ("O&M") Expenses	O&M expenses for PJTL have been estimated by the Management at INR 31.93 Mn in FY2024. During the forecast period, these expenses have been escalated at the rate of 3.51% per annum as per O&M Agreement and Management estimates. We have relied on the projections provided by the Management.
Project Management ("PM") Expenses	Project Management expenses for PJTL have been estimated by the Management at INR 4.79 Mn in FY2024. During the forecast period, these expenses have been escalated at the rate of 3.51% per annum as per Project Implementation and Management Agreement. We have relied on the projections provided by the Management.

Inputs	Details
License fees	Annual License fee has been estimated by the Management for the forecast period at 0.11% of Annual Transmission Charges as provided under the CERC regulations.
Insurance Expenses	Insurance expenses for PJTL have been estimated by the Management (based on the invoice obtained from insurer) at INR 57.29 Mn in FY2024. Insurance expenses are expected to remain constant throughout the life of the project.
Key Managerial Personnel Expenses	Key Managerial Personnel Expenses for PJTL have been estimated by the Management at INR 2.70 Mn in FY2024. During the forecast period, these expenses have been escalated at the rate of 6.50% per annum.
System and Market Operation Charges	System and Market Operation Charges for PJTL have been estimated by the Management at INR 3.21 Mn in FY2024. During the forecast period, these expenses have been escalated at the rate of 6.50% per annum.
Audit Expenses	Audit Expenses for PJTL have been estimated by the Management at INR 0.28 Mn in FY2024. During the forecast period, these expenses have been escalated at the rate of 10% per annum.
Other Administrative Expenses and Other Expenses	Other Administrative Expenses and Other Expenses for PJTL have been estimated by the Management at INR 0.79 Mn in FY2024. During the forecast period, these expenses have been escalated at the rate of 10% per annum.
Breakdown Contingencies	The Management has estimated that an amount of INR 0.50 Mn per annum shall be spent with respect to breakdown contingencies for PJTL during the forecast period.
CSR Expense	As per the provisions of Section 135 of the Companies Act 2013, a CSR Expense of 2% of the average profits for the past 3 years for PJTL has been considered.
Depreciation	Depreciation is being calculated using Straight Line Method over the life of the project considering a salvage value of 5% as per the Companies Act, 2013. For calculating depreciation as per Income Tax Act for the projected period, depreciation rate as specified in the Income Tax Act and WDV as per Income Tax Return filed by PJTL have been considered. PJTL is expected to incur certain maintenance capital expenditure during the forecast period. The effect of the same has been considered while computing both book and income tax depreciation. In March 2022, PJTL has purchased the Right of additional revenue from POWERGRID at INR 1,113.0 Mn as discussed above. The purchase consideration has been recognised as an Intangible asset (Right of Additional Revenue) in the balance sheet of PJTL. We understand from the Management that the amortization of the above intangible asset (Right of additional revenue) will be tax deductible under the Income Tax Act, 1961 and, accordingly, we have considered the tax amortisation of the above intangible asset in the valuation.

Inputs	Details
Tax Rate	PJTL shall pay taxes under the new regime at the rate of 25.17% throughout the forecast period. The effective tax rate throughout the forecast period shall be 25.17%
Working Capital	The Management have envisaged the working capital requirement of PJTL for the forecast period. The major operating working capital assumptions are as follows: a. Trade Receivables days – 45 days b. Unbilled Revenue days – 31 days
Debt	The borrowings as on 30th September 2023 of PJTL is from PGInvIT at an interest rate of 14.5% p.a.
Capital Expenditure	The Management has estimated capital expenditure to be incurred over the forecast period for PJTL. We have relied on the projections provided by the Management.
Contingent Liabilities	The Management represented that, as per the Share Purchase Agreement executed between POWERGRID, IDBI Trusteeship Services Limited (in its capacity as Trustee to PGInvIT), PUTL (in its capacity as Investment Manager to PGInvIT) and Specified SPVs, POWERGRID has undertaken to indemnify, defend and hold harmless the Trust and the Investment Manager from and against losses which relate to or arise from inter-alia any pending or threatened claims against the Specified SPVs from the period prior to and including the First Closing Date i.e. 13th May 2021 and no major contingent liabilities have arisen for the period after 13th May 2021. Since no contingent liability has to be borne by PJTL, there is no impact of contingent liability on the valuation.

Sensitivity Analysis

Sensitivity analysis is an analysis technique that works on the basis of what-if analysis like how independent variables can affect the dependent variable. As discussed above, DCF valuation involves use of critical inputs to determine equity value, these critical inputs are independent variables and resultant equity value is dependent variable.

The table below is a what-if analysis table, wherein the impact on equity value and enterprise value has been produced considering critical input being discount rates vary by 50 basis points in either direction.

Sensitivity		Equity Value	Enterprise Value
		(in ₹ millions)	
Discount rates	7.50%	8,010.17	19,666.31
	8.00%	7,078.98	18,735.12
	8.50%	6,242.67	17,898.81
	8.85%	5,709.58	17,365.72
	9.00%	5,486.99	17,143.13
	9.50%	4,800.46	16,456.60
	10.00%	4,173.79	15,829.93

10.5.3 Additional Disclosures

The Schedule V of the SEBI InvIT Regulations prescribes the minimum set of mandatory disclosures to be made in the full valuation report. However, in reference to half yearly valuation as on 30th September, 2023 any key changes occurred since the last full valuation or annual valuation need to be disclosed and hence only the key material changes are incorporated in this section.

Below is the additional information as required by the regulations

<table>
<tr><th>Parameter</th><th>Details</th></tr>
<tr><td>List of one-time sanctions/approvals which are obtained or pending:</td><td>The list is enclosed in Annexure – 5 to the report.</td></tr>
<tr><td>List of up to date/ overdue periodic clearances:</td><td>We have included the details in Annexure – 5 to the report.</td></tr>
<tr><td>Statement of assets included:</td><td>The details of assets of PJTL as of September 30th, 2023 are provided in Annexure – 10.</td></tr>
<tr><td>Estimates of already carried out as well as proposed major repairs and improvements along with estimated time of completion:</td><td>We understand from the Management that no major repairs and improvements of the assets have been performed till date. Also, PJTL does not plan to perform any major repairs and improvements during the life of the project except CAPEX requirement captured in the above analysis.
However, PJTL incurs regular annual maintenance charges of Transmission Lines. The projected operation and maintenance charges for the life the project along with the projected inflation rate is as follows:
<table>
<tr><th>Expenses</th><th>O&M Expenses</th></tr>
<tr><td>FY 2024</td><td>31.93</td></tr>
<tr><td>FY 2025</td><td>33.05</td></tr>
<tr><td>FY 2026</td><td>34.21</td></tr>
<tr><td>Annual inflation rate FY24 to FY51</td><td>3.51%</td></tr>
</table>

12. Limitations/ Disclaimer

This report is subject to the limitations detailed hereinafter.

As such the report is to be read in totality, and not in parts, in conjunction with the relevant documents referred to herein and in the context of the purpose for which it is made. This report is prepared with a limited purpose/ scope as identified and will be confidential being for use only to which it is issued. It must not be copied, disclosed or circulated in any correspondence or discussions with any person, except to whom it is issued and to those who are involved in this transaction and for various approvals and regulatory filings required for this transaction.

Valuation is not a precise science and the conclusions arrived at in many cases will, be of necessity, be subjective and dependent on the exercise of individual judgment. There is, therefore, no indisputable single value. While we have provided an assessment of the value based on the information available, application of certain formulae and within the scope and constraints of our engagement, others may place a different value to the same.

Our scope of work does not enable us to accept responsibility for the accuracy and completeness of the information provided to us. We have, therefore, not performed any audit, review or examination of any of the historical or prospective information used and therefore, does not express any opinion with regards to the same.

The draft of the present report was circulated to the Management for confirming the facts stated in the report and to confirm that information or facts stated are not erroneous and the assumptions used are reasonable.

Our work does not constitute an audit or certification of the historical financial statements/prospective results including the working results of the Company referred to in this report. Accordingly, we are unable to and do not express an opinion on the fairness or accuracy of any financial information referred to in this report. Valuation analysis and results are specific to the purpose of valuation mentioned in the report is as per agreed terms of our engagement. It may not be valid for any other purpose or as at any other date. Also, it may not be valid if done on behalf of any other entity.

In the course of the valuation, we were provided with both written and verbal information. We have however, evaluated the information provided to us by the Company through broad inquiry, analysis and review but have not carried out a due diligence or audit of the information provided for the purpose of this engagement. Our conclusions are based on the assumptions, forecasts and other information given by/on behalf of the Company. We assume no responsibility for any errors in the above information furnished by the Company and consequential impact on the present exercise.

A valuation of this nature involves consideration of various factors including those impacted by prevailing market trends in general and industry trends in particular. This report is issued on the understanding that the Management has drawn our attention to all the matters, which they are aware of concerning the financial position of the Company and any other matter, which may have an impact on our opinion, on the fair value of the shares of the Company including any significant changes that have taken place or are likely to take place in the financial position of the Company. We have no responsibility to update this report for events and circumstances occurring after the date of this report.

Any person/party intending to provide finance/invest in the shares/business of the Company shall do so after seeking their own professional advice and after carrying out their own due diligence procedures to ensure that they are making an informed decision.

The decision to carry out the transaction (including consideration thereof) lies entirely with the Management / the Company and our work and our finding shall not constitute a recommendation as to whether or not the Management / the Company should carry out the transaction.

Neither the firm nor its partners, managers, employees makes any representation or warranty, express or implied, as to the accuracy, reasonableness or completeness of the information, based on which the valuation is carried out. As such parties expressly disclaim any and all liability for, or based on or relating to any such information contained in the valuation.

This Report is based on the information provided by the Management. The exercise has been restricted and kept limited to and based entirely on the information provided to us. We have completely relied on the information provided by the Management and have assumed that the information provided is accurate and complete in all material respects.

We have assumed the genuineness of all signatures, the authenticity of all documents submitted to us as original, and the conformity of the copies or extracts submitted to us with that of the original documents.

We have assumed that the documents provided to us by the Management in connection with any particular issue are the only documents related to such issue.

We have analysed the information provided by the Management from the limited perspective of examining issues noted in the scope of work and we do not express any opinion as to the legal or technical implications of the same.

Summary of Approvals & Licences of VTL

S No.	Approvals	Date of Issue	Authority
1	Company Registration	02-03-2012	Ministry of Corporate Affairs - GoI
2	Transmission Licence (25 years)	08-01-2014	Central Electricity Regulatory Commission
3	Forest Clearance	Not Required	
4	Approval under Section 68 of Electricity Act,2003	08-03-2012	Ministry of Power - GoI
5	Approval from GoI under Section 164 of Electricity Act,2003 (25 years)	21-05-2014	Central Electricity Authority (MoP)
6	Approval from CERC under Section 17(3)	Not Required	
7	Environmental Clearance	Not Required	
8	Power & Telecommunication Coordination Committee clearance		
8(1)	400 kV D/C Khamman to Nagarjuna	25-04-2015	PTCC - Government of India
8(2)	765 kV D/C Srikakulam-Vemagiri	29-09-2016	PTCC - Government of India
9	Railway Crossing		
	1. Srikakulam-Vemagiri 765 kV D/C line		
9(1)	Mast No. 11/14-16 b/w Mallividu-Lakkavarapukota	20-11-2015	East Coast Railway
9(2)	Track at km 12/5-12/6 b/w Pedasana-Temburu	20-11-2015	East Coast Railway
9(3)	Mast no. 456/7-9 b/w Gotlam-Garudabili	20-11-2015	East Coast Railway
9(4)	Mast no. 769/29-31 b/w sigadam-ponduru	20-11-2015	East Coast Railway
	2. 400 kV D/C Khammam – Nagarjuna Sagar		
9(5)	Mast no. 473/11-12 & 473/13-14 of Khammam-Dorknal	20-03-2015	South Central Railway
9(6)	Track at Km/TP: 123/5-123/6 b/w KDGL-MRGA	16-06-2015	South Central Railway
10	Road Crossing		
	1. 765 kV D/C Srikakulam-Vemagiri line		
10(1)	NH-16 at km 853/612 at Prathipadu village	14-09-2016	National Highways Authority of India
10(2)	NH-43 in Nellivada village	18-08-2016	National Highways & CRF
	2. 400 kV D/C Khammam – Nagarjuna Sagar		
10(3)	NH-65 at km stone 168 - 169 of Hyderabad-Vijaywada	30-11-2015	National Highways Authority of India
11	River Crossing		
	1. 765 kV D/C Srikakulam-Vemagiri line	No Major River Crossing in this line	
	2. 400 kV D/C Khammam – Nagarjuna Sagar line	No Major River Crossing in this line	
12	Powerline Crossing		
	1. 765 kV D/C Srikakulam-Vemagiri line		
12(1)	400 kV D/C Kalpaka - Khammam Line	28-06-2016	AP Transco
12(2)	400 kV S/C Vijaywada-Gajuwada Line	08-05-2016	Power Grid Corporation of India Ltd
12(3)	400 kV D/C Vemagiri - Simhadry Line	31-07-2016	Power Grid Corporation of India Ltd
12(4)	132 kV Peddapuram - Prithipadu-I Line	08-09-2016	AP Transco
12(5)	132 kV Peddapuram - Prithipadu-II Line	08-09-2016	AP Transco
12(6)	132 kV Navabharat – Prithipadu Line	08-09-2016	AP Transco
12(7)	132 kV D/C Pendurti-TB Vara Line	18-06-2016	AP Transco
12(8)	132 kV S/C Koruprolu-Narisipatnam Line	29-05-2016	AP Transco
12(9)	220 kV S/C Line Seileru-Pendurthi line	21-04-2016	AP Transco
12(10)	400 kV D/C Jeypore-Gajuwaka Line	04-07-2016	Power Grid Corporation of India Ltd
12(11)	220 kV D/C BD Palem - Bobbili Line	08-09-2016	AP Transco
12(12)	132 kV S/C Ventithadi-TB Voora Line	08-05-2016	AP Transco
12(13)	132 kV S/C Garividi-TB Voora Line	08-05-2016	AP Transco
12(14)	132 kV S/C Garividi-Vontithadi Line	22-05-2016	AP Transco
12(15)	132 kV S/C Garividi-TB Voora Line	22-05-2016	AP Transco
12(16)	220 kV D/C Garividi-Pendurti Line	03-07-2016	AP Transco
12(17)	132 kV D/C Garividi Pydibhimavaram & Pydibhimavaram Chilakapalem Line	14-08-2016	AP Transco
12(18)	132 kV D/C Garividi-Palakonda & Pydibhimavaram Chilakapalem Line	24-07-2016	AP Transco
12(19)	220 kV D/C Garividi-Tekkali Line	10-07-2016	AP Transco
12(20)	132 kV D/C Garividi-Palakonda to Tekkali-Ponduru Line	25-08-2016	AP Transco
12(21)	132 kV D/C Tekkali - Pathapattanam	03-04-2016	AP Transco
12(22)	132 kV D/C Gaarividi-Tekkali	20-03-2016	AP Transco
	2. 400 kV D/C Khammam – Nagarjuna Sagar line		
12(23)	132 kV D/C Khammam-Dornakal Line	23-09-2015	South Central Railway
12(24)	132 kV D/C Khammam-Kusumanchi line	21-09-2015	Madhucon Sugar & Power Industries Limited
12(25)	132 kV D/C Kusumanchi - Madhucon line	21-09-2015	Madhucon Sugar & Power Industries Limited

12(26)	220 kV S/C KTPS -Miryalaguda Line	10-12-2015	TS Transco
12(27)	400 kV D/C VTPS -Malkaram Line	21-12-2015	TS Transco
12(28)	400 kV S/C Khammam- Nagarjuna Sagar Line	12-09-2015	Power Grid Corporation of India Ltd
12(29)	132 kV D/C Miryalaguda - Podugulla	02-12-2015	TS Transco
12(30)	132 kV Miryalaguda - Wadapalli Feeder 1&2	21-12-2015	TS Transco
12(31)	132 kV S/C Rentichintala - Parasakti SS line	02-12-2015	AP Transco
12(32)	132 kV Rentichintala - Nagarjuna Sagar Tail Pond Line	02-12-2015	AP Transco
12(33)	220 kV D/C Budidampadu - Bhuvanagiri	21-12-2015	TS Transco
12(34)	220 kV D/C Khammam - Miryalaguda	21-12-2015	TS Transco
12(35)	132 kV Miryalaguda - Dirsencherla and Miryalaguda - Matampalle	02-12-2015	TS Transco
12(36)	220 kV D/C Tallapalli to VTPS	02-12-2015	AP Transco
12(37)	132 kV S/C Budidampadu - Dornakal	02-12-2015	TS Transco
13	Aviation Clearance - NOC for Transmission line		
13(1)	765 kV D/C Srikakulam-Vemagiri line	19-08-2016	Eastern Naval Command, Naval Base, Visakhapattnam
13(2)	400 kV D/C Khammam - NagarjunaSagar line	Not Required	
14	Defence Clearance- NOC from aviation angle for construction	Not Required	
15	Transmission service agreements	14-05-2013	
16	Approval for adoption of Tariff (35 years)	23-01-2014	Central Electricity Regulatory Commission

(iii)	Other Pending Litigation							
1	Revenue Case	POWERGRID CORPORATION OF INDIA LIMITED	Tehsildar, Warora	Tehsildar, Warora	Rs. 33,14,410/-	Revenue Case No. 1/2018	On 10.01.2018, Ld. Tahsildar, Warora has issued an order that the PWTL has done construction for commercial use without obtaining the permission from the change of use from the agricultural purpose to non-agricultural purpose. As per said order, the Naib-Tahsildar, Warora committed error in imposing N.A. taxes of Rs. 7,45,740/- without imposing penalty and therefore, Ld. Tehsildar has reviewed order and imposed 40 times penalty of Rs. 33,14,400/- in addition to non-agricultural taxes. The said order was challenged by POWERGRID on 06.03.2018, by filing an appeal before the Sub-Divisional Officer Warora, under section 247 of Maharashtra Land Revenue Code, 1966. The main contention on behalf of the undersigned corporation was that, as per Section 44A of the Maharashtra Land Revenue Code, if the land is used for bonafide industrial use than there is no requirement of conversion of land. Further, the explanation to section 44-A of Maharashtra Land Revenue Code clearly states that the power project is a bonafide use of land for industrial purpose. Thereafter, vide order dated 17.07.2018, Hon'ble Appellate Authority under Maharashtra Land Revenue Code has partially allowed the appeal and remanded the matter to the Tahsildar, Warora for decision on the points submitted by the objector. The matter was finally argued on 23.02.2022. The order is still awaited in the matter	Arguments was done on 23.02.2022. Order still awaited.
2	Compensation for Damages to Crops	Smt. Anubai & 3 Ors	Power Grid Corporation of India Ltd. & 3 Ors	District Court, Wardha	9,00,000/-	MJC No. 4 of 2017	The instant case relates to 400 kV D/C LILO Wardha- Parli Transmission Line. The petitioner has filed instant suit claiming compensation for damages to crops during erection of transmission Line.	The case was last listed on 16.09.2023 for Evidence.The Next date of hearing is 07.10.2023
3	Possession & Compensation for damages to Crops	Suresh Nehare & 5 Ors.	Shankar Nehare & 4 ors	Civil Judge Junior Division Division, Wardha	Not quantifiable	RCS N. 266 of 2017	The instant case relates to 400 kV D/C LILO Wardha- Parli Transmission Line. The petitioner has filed instant suit claiming for declaration of partition & possession of survey no. 138 of muza nimsada, The- Deoli , Dist- Wardha. The petitioner has also claimed the compensation amount recieved from POWERGRID for erection of transmission Line has not been districurted between petitioner & defendant no. 1.	The case was last listed on 16.09.2023 for Evidence.The Next date of hearing is 07.10.2023
